

## **Notice of Public Meeting**

**Thursday, October 5, 2006  
6:30 P.M. to Approx. 8:00 P.M.  
Calaveras County Water District Board Room**

**Calaveras County Water District staff and AMEC Consulting will present a draft Multi-Hazard Mitigation Plan to maintain eligibility for mitigation funding from the Federal Emergency Management Agency (FEMA). We would like YOUR feedback regarding this important document, which must be approved by the Calaveras County Water District Board of Directors, the State of California, and FEMA. The plan identifies natural hazards that pose a threat to the water district and evaluates the current abilities of the district to reduce the impacts of future disasters.**

**Hazard mitigation is defined as any sustained action taken to reduce or eliminate long-term risk to human life and property from hazards. Natural hazard mitigation planning is the process in which natural hazards that threaten a community are identified, their likely impacts are assessed, mitigation goals are set, and appropriate strategies for reducing risk are developed, prioritized, and implemented. Feedback may be offered by reviewing and providing comments to the Plan. The draft Plan will be available at the meeting, CCWD's web page, and at the County library.**

**Comments on CCWD's draft Multi-Hazard Mitigation Plan will be due to the District by Tuesday, October 10, 2006 at 4:00 P.M. Please contact Ed Pattison, CCWD's HMP Project Manager, if you have any questions, comments, or suggestions:**
