

REGULAR BOARD MEETING

AGENDA

Wednesday, August 12, 2026 • 1:00 p.m.

IN-PERSON**Calaveras County Water District**

120 Toma Court
San Andreas, California 95249

REMOTE ACCESS**[Join the Microsoft Teams meeting](#)**

Meeting ID: 238 006 053 938 | Passcode: xu6Wd2az
[Dial +1 323-647-8603, conference ID 974 168 969#](#)

OUR MISSION

Protect, enhance, and develop Calaveras County's water resources and watersheds to provide safe, reliable, and cost-effective services to our communities.

2021–2026+ Strategic Plan, adopted April 28, 2021 | [View strategic plan](#)

BOARD OF DIRECTORS

District 2 - Jack Garamendi, President
District 1 - Scott Ratterman, Vice President
District 5 - Jeff Robertson, Director
District 4 - Russ Thomas, Director
District 5 - Jeff Davidson, Director

AGENDA REFERENCES

Resolution No. 2026-60
PFA Resolution No. PFA-02
Ordinance No. 2026-02

ACCESSIBILITY | In compliance with the Americans with Disabilities Act, if you need special assistance to participate in this meeting, contact the Administration Office at 209-754-3028. Advance notification will enable CCWD to make reasonable arrangements. Documents made available to the Board before or at the meeting, not privileged or otherwise protected from disclosure and related to agenda items, will be available at CCWD for public review.

PUBLIC PARTICIPATION | District Board meetings are open to in-person attendance and are conducted virtually. Remote participants will have an opportunity to address the Board, and comments will be included in the meeting recording. Remote access is offered for convenience. If a technological malfunction occurs, the Board can guarantee receipt of live comments only through in-person attendance and may proceed without remote access, except during a noticed teleconference meeting.

ORDER OF BUSINESS

CALL TO ORDER / PLEDGE OF ALLEGIANCE**1 ROLL CALL****2 PUBLIC COMMENT**

Members of the public may address the Board on any non-agendized item. The public is encouraged to work through staff to place items on the agenda for Board consideration. No action can be taken on matters not listed on the agenda. Comments are limited to three minutes per person.

3

CONSENT AGENDA

These items are expected to be routine or non-controversial and will be acted upon at one time without discussion. Any Board member may request that an item be removed for later discussion.

ORDER OF BUSINESS

CALL TO ORDER / PLEDGE OF ALLEGIANCE

1. ROLL CALL

President Garamendi called the Regular Board Meeting to order at 1:00 p.m. and led the Pledge of Allegiance. Director Davidson was absent.

2. **PUBLIC COMMENT:** No public comment was provided.

3. **CONSENT AGENDA**

MOTION: Directors Ratterman/Thomas-Moved to Approve Consent Agenda Items: 3a, 3b, 3c, 3d and 3e as presented

3a Approval of the Minutes for the Board Meetings of June 24 and July 8, 2026
(Rebecca Hitchcock, Clerk to the Board)

3b Report on the Monthly Investment Transactions for June 2026
(Kelly Zahniser, Director of Administrative Services)

3c Ratify Claim Summary #652 Secretarial Fund in the Amount of \$4,915,329.00
for June 2026
(Kelly Zahniser, Director of Administrative Services) **RES 2026-57**

3d Approval of the Agreement with the Service Employees International Union Local
1021
(Stacey Lollar, Human Resources Manager) **RES 2026-58**

3e Approval of the La Contenta Wastewater Treatment Plant UV Sole Source Purchase
(Jesse Hampton, Plant Operations Manager)

AYES: Directors Ratterman, Thomas, Robertson, and Garamendi

NOES: None

ABSTAIN: None

ABSENT: Director Davidson

4. **NEW BUSINESS**

4a Discussion/Action regarding Annual Resolution to Place Delinquent Charges on
County Tax Rolls
(Kelly Zahniser, Director of Administrative Services) **RES 2026-59**

MOTION: Directors Ratterman/Robertson-Moved to Adopt Resolution No.
2026-59, Placing the Delinquent Charges on the County Tax Rolls

DISCUSSION: Kelly Zahniser reported that for fiscal year 2025-26, there are 606 delinquent accounts eligible for placement on the tax roll, representing about \$966,000 in unpaid charges, an increase of 50 accounts and nearly \$175,000 compared to the previous year. The Board discussed the effectiveness and drawbacks of lock-offs and late fees.

PUBLIC COMMENT: No public comment was provided.

AYES: Directors Ratterman, Robertson, Thomas, and Garamendi

NOES: None

ABSTAIN: None

ABSENT: Director Davidson

5. **REPORTS**

- 5a Monthly External Affairs Report
(Kelly Gerkenmeyer, External Affairs Manager)

DISCUSSION: Kelly Gerkenmeyer provided an update on external affairs, highlighting social media engagement, outreach events, educational initiatives, and community presentations. He responded to questions from the Board.

PUBLIC COMMENT: No public comment was provided.

- 5b Monthly Operations Report
(Damon Wyckoff, Director of Operations)

DISCUSSION: Damon Wyckoff presented the June 2026 operations report, detailing service line repairs, main break responses, construction projects, telemetry and communications maintenance, and the Copper Cove raw water pump replacement, with technical explanations and lessons learned. He responded to questions from the Board.

PUBLIC COMMENT: No public comment was provided.

- 5c General Manager's Report
(Michael Minkler)

Mr. Minkler provided updates on several items, including:

1. Yesterday's Finance Committee meeting discussed monthly billing and the reserve policy
2. The Summer Intern Program
3. The Calaveras Public Power Authority (CPPA) meeting
4. The FERC relicensing status and CCWD should be filing for an extension in September
5. Northern California Power Agency (NCPA) has a new General Manager, Tony Zimmer
6. The upcoming Upper Mokelumne River Watershed Authority (UMRWA) meeting
7. The upcoming meeting with Calaveras County

6 **BOARD REPORTS / INFORMATION / FUTURE AGENDA ITEMS**

Director Thomas reported that one of the engineers at the District, Juan Maya, has taken a position elsewhere.

Director Ratterman reported on the upcoming Urban Water Institute Annual Conference in San Diego.

Director Robertson recognized former Director Bertha Murray.

Director Garamendi had nothing to report.

PUBLIC COMMENT: Bertha Murray provided public comment.

7. **CLOSED SESSION**

Closed Session was canceled.

7a Government Code § 54957.6 Agency Negotiators: General Manager Michael Minkler, HR Manager Stacey Lollar Regarding Negotiations with Employee Organization Service Employees International Union Local 1021

8. **NEXT BOARD MEETINGS**

- Wednesday, August 12, 2026, 1:00 p.m., Regular Board Meeting
- Wednesday, August 26, 2026, 1:00 p.m., Regular Board Meeting

9. **ADJOURNMENT**

With no further business, the meeting adjourned at 2:23 p.m.

By:

ATTEST:

Michael Minkler
General Manager

Clerk to the Board

AGENDA ITEM 3B

Agenda Item

DATE: August 12, 2026

TO: Michael Minkler, General Manager

FROM: Rebecca Hitchcock, Clerk to the Board

SUBJECT: Review Board of Directors Time Sheets for July 2026

RECOMMENDED ACTION:

For information only.

SUMMARY:

In accordance with the directive of the Board of Directors, copies of the monthly timesheets submitted by Board Members—upon which compensation is based—are provided in the agenda packet for informational purposes. Enclosed are the timesheets for the month of July 2026.

Board Members are reimbursed for mileage incurred while traveling to authorized meetings and conferences, in accordance with the prevailing IRS mileage rate.

FINANCIAL CONSIDERATIONS:

All Board Member compensation and mileage reimbursement expenses are incorporated into the adopted Fiscal Year 2026–2027 budget.

STRATEGIC PLAN INITIATIVES:

FR-08 Communicate the District's fiscal obligations and accountability to our customers through transparency and effective public outreach.

RESOLUTION NO. 2026-

**A RESOLUTION OF THE BOARD OF DIRECTORS
OF THE CALAVERAS COUNTY WATER DISTRICT**

RATIFYING CLAIM SUMMARY NO. 653

WHEREAS, the Board of Directors of the CALAVERAS COUNTY WATER DISTRICT has reviewed and considered Claim Summary Number 653 at the Regular Meeting held on August 12, 2026; and

WHEREAS, Board Members have resolved questions, issues, or concerns by consultation with District staff during said meeting.

NOW, THEREFORE, BE IT RESOLVED that the CALAVERAS COUNTY WATER DISTRICT Board of Directors hereby ratifies Claim Summary Number 653 in the amount of \$4,555,641.79 for the month of July 2026.

PASSED AND ADOPTED this 12th day of August 2026 by the following vote:

AGENDA ITEM 3D

Agenda Item

DATE: August 12, 2026

TO: Board of Directors

FROM: Rebecca Hitchcock, Clerk to the Board

SUBJECT: 2026 Biennial Review of the District's Conflict of Interest Code
Policy 5070

RECOMMENDED ACTION:

Motion: _____ / _____ by Minute Entry approving the 2026 Biennial Review of the District's current Conflict of Interest Code – Policy 5070.

SUMMARY:

Background: The District adopted its original Conflict of Interest Code in 1996 through Resolution No. 96-146 and amended thereafter. Under the Political Reform Act, each local government agency must review its conflict of interest code every two years and amend it as needed to remain compliant with legal requirements.

Most Recent Amendment: The Board last amended Appendix "A" of the Conflict of Interest Code on July 24, 2024, adding the Business Services Manager and External Affairs Manager to the list of designated positions.

Current Review: Following the current biennial review, staff recommends no changes to the District's Conflict of Interest Code, Policy No. 5070.

STRATEGIC PLAN INITIATIVES:

FR-08 Communicate the District's fiscal obligations and accountability to our customers through transparency and effective public outreach.

PI-10 Maintain up-to-date District Policies

FINANCIAL CONSIDERATIONS:

None.

Attachments: Policy No. 5070, Conflict of Interest Code and 5070.60 Appendix "A"

Conflict of Interest Code

5070.10 Policy Purpose

The purpose of this policy is to establish procedures developed in compliance with the terms of the Political Reform Act and related regulations concerning the adoption of Conflict of Interest Codes in the state of California.

5070.20 Policy Statement

The Political Reform Act, Government Code Section 81000, *et seq.* requires state and local government agencies to adopt and promulgate conflict of interest codes. The Fair Political Practices Commission (FPPC) has adopted a regulation, 2 California Code of Regulations, Section 18730, which contains the terms of a standard Conflict of Interest Code, which may be incorporated by reference and which may be amended by the FPPC to conform to amendments in the Political Reform Act. Therefore, the terms of 2 California Code of Regulations Section 18370 and any amendments to it duly adopted by the FPPC are hereby incorporated by reference as the Conflict of Interest Code of the Calaveras County Water District (District). The Standard Conflict of Interest Code requires a list of District positions subject to its provisions, and Appendix A attached hereto and incorporated herein, defines designated employees and disclosure categories.

5070.30 Policy Implementation

The requirements of when and where to file Statements of Economic Interests are as provided in Title 2 Section 18754, which is incorporated herein by reference. All designated employees and District Board and Joint Powers Agency members shall file Statements of Economic Interests, on forms required by the FPPC, with the Clerk to Board of the District or respective Joint Powers Agency, no later than April 1 of each calendar year. Members of the District's designated positions shall file such statements also upon assuming office and leaving office.

The Clerk to the Board of the District shall be responsible to ensure Statements of Economic Interests are completed and filed as required. Individuals holding designated positions shall file Statements of Economic Interests with the District's Clerk to the Board, and shall have available and annually review the current provisions of Title 2, California Code of Regulations Section 18370 to ensure District compliance with its requirements.

5070.40 Policy Review

In accordance with Government Code 87306.5, the Conflict of Interest Code of the District is reviewed in even-numbered years and Appendix A is updated, if necessary. A completed notice of review will be filed with the Clerk of the Calaveras County Board of Supervisors. Revisions to the District's Conflict of Interest Code or its Appendix A, approved by the District Board of Directors will be forwarded to the Clerk of the Calaveras County Board of Supervisors.

5070.50 Related Policies

Members of the Board of Directors are directed to Board Policy 4010, Ethics, which incorporates conflict of interest concerns directly related to Board member responsibilities.

Attachment: Appendix A

**Conflict of Interest Code
5070.60 Appendix A**

Disclosure Categories

1. A person in this category must report investments, interests in real property or income affected by actions and activity of District decisions, and whether he/she owns or has interests in business entities in which he/she is a director, officer, partner, trustee, employee, or holds any position of management or fiscal oversight which may be affected by actions and activities of the District.

2. A person who makes or participates in making decisions which may foreseeably have a material financial effect on any financial interest of the District must report as in 1., above.

Note: Consultants are included in the list of designated employees, and shall disclose pursuant to Category 1 subject to the following limitation:

The General Manager may make a determination, in writing, that a particular consultant, although a “designated position,” is hired to perform a range of duties that is limited in scope and thus is not required to fully comply with the disclosure requirements. Such written determination shall include a description of the consultant/legal counsel’s duties, and, based upon that description, a statement of the extent of disclosure requirements. The General Manager’s determination is a public record and shall be retained for public inspection.

Designated Employees:

Position	Disclosure Category
1. Board Members	1
2. General Manager	1
3. District Engineer	2
4. Director of Administrative Services	1
5. Information Systems Administrator	2
6. District Counsel (Consultant, see above note)	1
7. Manager of Water Resources	2
8. Construction and Maintenance Manager	2
9. Plant Operations Manager	2
10. Director of Operations	1
11. Human Resources Manager	1
12. External Affairs Manager I/II	1
13. Purchasing Agent	2
14. Legislative Consultant	2

AGENDA ITEM 3E

Agenda Item

DATE: August 12, 2026

TO: Michael Minkler, General Manager

FROM: Stacey Lollar, HR Manager

SUBJECT: Adoption of the District's Fiscal Year 2026/2027 Publicly Available Pay Schedule for CalPERS Compliance

RECOMMENDED ACTION:

Motion: _____ / _____ approving Resolution 2026-____ approving the adoption of the District's publicly available pay schedule for FY 2026/2027 to compliance with CalPERS regulations.

SUMMARY:

As required by CalPERS, the District must maintain a publicly available pay schedule that is duly approved and adopted by the governing body, identifies each position title, specifies the pay rate for each position, and indicates the applicable time base for the compensation (e.g., hourly, bi-weekly, monthly, or annually).

While the Board has previously approved compensation through various Memoranda of Understanding, employment agreements, and salary schedules, CalPERS regulations require the District to adopt and maintain a single publicly available pay schedule containing all District classifications and salary ranges. Adoption of the attached resolution satisfies this requirement and consolidates the District's compensation information into a single document.

FINANCIAL CONSIDERATIONS:

This action does not establish or modify compensation for any position. The proposed public pay schedule consolidates compensation information previously approved by the Board into a single document for CalPERS compliance purposes.

Attachments: Resolution No. 2026-____ Adopting FY 2026-2027 publicly available pay schedule

RESOLUTION NO. 2026-

**A RESOLUTION OF THE BOARD OF DIRECTORS
OF THE CALAVERAS COUNTY WATER DISTRICT**

**RESOLUTION ADOPTING THE DISTRICT's FY 2026/2027
PUBLICLY AVAILABLE PAY SCHEDULE FOR CALPERS COMPLIANCE**

WHEREAS, the CALAVERAS COUNTY WATER DISTRICT (CCWD) participates in the California Public Employees' Retirement System (CalPERS); and

WHEREAS, Title 2, California Code of Regulations Section 570.5 requires participating public agencies to maintain a publicly available pay schedule that is approved and adopted by the governing body and available for public inspections; and

WHEREAS, CCWD has prepared a Publicly Available Pay Schedule identifying each employee classification, the applicable base pay salary range, and time base in accordance with CalPERS requirements; and

WHEREAS, the Board of Directors finds that adoption of the Publicly Available Pay Schedule is necessary to comply with CalPERS reporting requirements.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Directors of the CALAVERAS COUNTY WATER DISTRICT hereby adopts the District's FY 2026/2027 Publicly Available Pay Schedule, effective July 1, 2026, attached hereto and made a part hereof, for the purposes of CALPERS compliance.

BE IT FURTHER RESOLVED, that the District will maintain the Publicly Available Pay Schedule in a manner that is readily accessible for public inspection and will retain the schedule in accordance with applicable CalPERS requirements.

PASSED AND ADOPTED by this 12th day of August, 2026 by the following vote:

AGENDA ITEM

3F

Agenda Item

DATE: August 12, 2026

TO: Michael Minkler, General Manager

FROM: Kevin Williams, District Engineer

SUBJECT: Approval of Amendments to Rules and Regulations Regarding Accessory Dwelling Units (ADUs)

RECOMMENDED ACTION

Motion: _____ / _____ adopting Resolution No. 2026-__ approving amendments to Article IV, Section 35 of the District's Rules and Regulations to implement the ADU/JADU Ordinance adopted by the Board on June 10, 2026.

BACKGROUND

On June 10, 2026, the Board approved revisions to the District's ADU Ordinance following a public hearing. Staff has prepared updates to the District's Rules and Regulations to ensure consistency with the ordinance and provide clear procedures for implementation. The proposed changes address service requirements, connection fees, capacity charges, meter requirements, and eligibility criteria for ADUs and JADUs.

FINANCIAL CONSIDERATIONS

No direct budget impact. The amendments provide administrative guidance for implementing existing ADU service and fee requirements.

STRATEGIC PLAN ALIGNMENT

Supports transparent customer service policies, regulatory compliance, and consistent administration of District services.

Attachments:

1. Resolution No. 2026-__ Adopting Amendment to Article IV, Section 35 of the District's Rules and Regulations
2. Redline Version of Proposed Revisions,
3. Clean Version of Revised Article IV, Section 35

RESOLUTION NO. 2026-

**A RESOLUTION OF THE BOARD OF DIRECTORS OF
THE CALAVERAS COUNTY WATER DISTRICT
APPROVING AMENDMENTS TO ARTICLE IV, SECTION 35 OF THE DISTRICT'S
RULES AND REGULATIONS REGARDING ACCESSORY DWELLING UNITS (ADUs)
AND JUNIOR ACCESSORY DWELLING UNITS (JADUs)**

WHEREAS, on June 10, 2026, the Board of Directors of the CALAVERAS COUNTY WATER DISTRICT approved revisions to the District's ADU/JADU Ordinance; and

WHEREAS, staff have prepared amendments to Article IV, Section 35 of the District's Rules and Regulations to ensure consistency with the adopted ordinance and provide clear procedures for implementation.

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors of the Calaveras County Water District hereby approves the amendments to Article IV, Section 35 of the District's Rules and Regulations as presented.

PASSED AND ADOPTED this 12th day of August 2026 by the following vote:

AYES:

CALAVERAS COUNTY WATER DISTRICT
RULES AND REGULATIONS GOVERNING THE FURNISHING OF WATER
AND/OR WASTEWATER SERVICES

ARTICLE IV
DOMESTIC SERVICE INSIDE IMPROVEMENT DISTRICTS
(ORIGINAL CONNECTIONS ONLY)

Section 31. Filing of Application for Service. The owner of any property lying within an improvement district who desires his/her property to be connected with any existing water and/or sewer facilities system for the purpose of obtaining water and/or sewer service for domestic purposes therefrom, for use upon such property, shall file an application on a form provided by the District.

Section 32. Sharing of Original System Costs. Applicants not joining in the original cost of building a distribution system for their area, prior to obtaining service for their premises, will be required to contribute their proportionate share of the cost of the original system, plus all other costs applicable for service in that system.

A. Fees: Assessment Connection Charges. In addition to other fees and charges established by ordinance, resolutions, rules and regulations of the District, there shall be collected, prior to connection to the water and/or sewer facilities systems of any unit, lot, parcel or any part thereof, which abuts on or can be directly served by an existing or future water and/or sewer facilities of the District constructed or acquired pursuant to special assessment proceedings or improvement district proceedings, an additional connection charge equal to the amount which said property would have been assessed for said water and/or sewer facilities improvements. Said additional connection charges shall be imposed for a period of forty (40) years from the date for which the original assessment cash payments were requested, and all be deposited to a restricted fund, "Special Assessment Districts' Restricted Funds", benefitting only the water and/or sewer facilities systems for which the assessments were levied and to be used therein as the Board of Directors of the District may direct.

Resolution 3024, May 8, 1980

Section 33. Non-Obligation of Applicant. The application is merely a written request for service and does not bind the applicant to take service for a period of time longer than that upon which the rates and minimum charges of the applicable rate schedule are based; neither does it bind the District to serve, except under reasonable conditions and pursuant to its rates, rules and regulation as they are from time to time established and amended by the Board.

CALAVERAS COUNTY WATER DISTRICT
RULES AND REGULATIONS GOVERNING THE FURNISHING OF WATER
AND/OR WASTEWATER SERVICES

ARTICLE IV
DOMESTIC SERVICE INSIDE IMPROVEMENT DISTRICTS
(ORIGINAL CONNECTIONS ONLY)

Section 34. District Procedure to Service Connections. The District will, upon receipt of an application and the required connection fees from the applicant (See Schedules 15 and 15A for Line Connection Fees), proceed with all reasonable diligence to furnish and install a service connection of suitable capacity, from its water distribution main to the curb line or property line of the premises abutting upon a street, other thoroughfare, District right-of-way or easement on which said main is located.

Only duly authorized employees or agents of the District will be permitted to install a service connection from the District's main to the customer's premises.

CALAVERAS COUNTY WATER DISTRICT
RULES AND REGULATIONS GOVERNING THE FURNISHING OF WATER
AND/OR WASTEWATER SERVICES

ARTICLE IV
DOMESTIC SERVICE INSIDE IMPROVEMENT DISTRICTS
(ORIGINAL CONNECTIONS ONLY)

Section 35.

Residential Service. The District will install a meter for each legal parcel with an individual home.

Commercial Service. Separate business units on the same legal parcel, under a single control or management, may be served, at the option of the applicant, by either of two methods:

1. Through separate service connections and meters to each unit, provided that the piping system for each unit is independent of the others and is not interconnected; or
2. Through a single service connection and meter to the entire premises

Cost of the meter will be borne by the customer, and no water will be furnished or supplied through any connection except through a meter.

Resolution 2006-10, January 25, 2006

CALAVERAS COUNTY WATER DISTRICT
RULES AND REGULATIONS GOVERNING THE FURNISHING OF WATER
AND/OR WASTEWATER SERVICES

ARTICLE IV
DOMESTIC SERVICE INSIDE IMPROVEMENT DISTRICTS
(ORIGINAL CONNECTIONS ONLY)

Section 35. (continued)

Meter Ownership and Control. Ownership and control of the meter shall be in each and every instance become, be and remain in the District. It is expressly understood that where a meter and other facilities including housings and connections are located in a customer's premises, no rent or other charge will be paid by the District therefor. All meters will be sealed by the District at the time of installation, and no seal shall be altered or broken except by one of the District's authorized employees or agents.

A. Accessory Dwelling: Water service for an accessory dwelling can be provided from the meter of the primary residence only if:

- 1.) The accessory dwelling has been approved by Calaveras County in accordance with the Calaveras County Code Title 17, Chapter 17.66, as may be amended;
- 2.) An accessory dwelling permit from the County is attached to the CCWD application for service;
- 3.) A licensed plumber has verified in writing the adequacy of the water meter size *"based on the total number of fixture units to be serviced by the meter;"* and
- 4.) The maximum total floor area does not exceed nine-twelve hundred (1,200~~900~~) square feet.

5. ADUs and JADUs shall be served by the District's water and/or sewer systems only where service is available and consistent with District regulations, capacity limitations, and the requirements of applicable land use authorities.

B. ADUs and JADUs Connection Fee and Capacity Charge:

1. A JADU or ADU described in paragraph 1 of subdivision (a) of Government Code Section 66323, shall not require a new or separate utility connection, and no connection fee or capacity charge shall be imposed.

2. All other ADU or JADU may connect through existing water and sewer service lines and meters serving the primary dwelling, and no connection fee or capacity charge will be imposed if all of the following apply:
- - A. The District Engineer has verified the adequacy of the water meter size based on the standards in the Uniform Plumbing Code, including the primary residence and ADU or JADU, including any fire sprinkler requirements, the meter size and service line is adequate;
 - B. The District Engineer has verified based on the standards in the Uniform Plumbing Code, the adequacy of sewer service for both the ADU or JADU and the primary dwelling, based on the total number of fixture units;
 - C. The maximum total floor area of the ADU does not exceed 750 square feet.
 -
 - 3. If the ADU or JADU meets the requirements of Section 2 above, but the Primary Dwelling is served by a septic tank effluent pump system, the ADU or JADU will need to either install a larger septic tank effluent pump system to handle the ADU or JADU, or install a separate septic tank effluent pump system dedicated specifically for the ADU or JADU as directed by the District Engineer. Any costs incurred by the District in connection with increasing the septic tank or adding a separate system will be borne by the applicant.
 -
 - 4. All ADU or JADU's that do not meet the requirements of item 1 or 2 above, shall be required to install a separate water meter and/or separate sewer lateral, and the connection fee and capacity charge shall be for such new connection shall be charged at fifty five (55) percent of the District's standard connection fee and capacity charge for an equivalent single family unit in the area of the ADU or JADU.
 -
 - A. Additionally, upon connection of the ADU or JADU under this Section 4 to the District's system the ADU and JADU shall be required to pay the bi-monthly water and/or wastewater rates at the current District rate times .55.
 -
 - B. The maximum floor area of an ADU or JADU shall not exceed one thousand two hundred square feet. Should it exceed one thousand two hundred square feet, it shall be required to pay the full District's standard connection fee and capacity charge and shall not be considered an ADU or JADU under this ordinance.
 -

5. In no event shall the fee calculated under this section exceed the maximum connection or capacity charge supported by the District's most recent fee study for an additional EDU.

Should the meter size increase because of the accessory dwelling, additional capacity fees will be charged. Accessory dwellings that no longer qualify as an accessory dwelling, through actions such as a lot split, shall be required to have a separate connection and meter. Application for service and payment of the appropriate capacity fees and rates shall be required.

Resolution 2007-114, December 12, 2007

CALAVERAS COUNTY WATER DISTRICT
RULES AND REGULATIONS GOVERNING THE FURNISHING OF WATER
AND/OR WASTEWATER SERVICES

ARTICLE IV
DOMESTIC SERVICE INSIDE IMPROVEMENT DISTRICTS
(ORIGINAL CONNECTIONS ONLY)

Section 36(A) Water Line Cross-Connections. When any water pipe on a customer's premises is cross-connected to another source of water supply or to any possible source of system contamination, the District may refuse or immediately discontinue service until there shall be installed at the expense of the customer a suitable protective device to protect against back flow into the District's system. To further implement a Cross-Connection Program, the District adopts its own requirements, those stated in the California Administrative Code, Title 17, Section 7583 through 7605, inclusive, as adopted by the California State Legislature, June 1987, and as from time to time additions and amendments are made thereto by the California State Legislature.

Section 36(A.1) Detector Check Meter Charge Policy. Where a Detector Check Meter is required by Board policy, the property owner will be required to pay CCWD the standard monthly base charge applicable to a 5/8 metered water service as established by the CCWD Board.

Resolution 2011-09, January 26, 2011

Section 36(B) Pressure Evaluation Restrictions. When a customer receiving service elevates or increases the pressure of the water received by means of a pump of any

kind, the pump shall not be attached to any pipe directly connected to the District's main or service pipe.

Such pumping or boosting of pressure shall be done from a sump, cistern or storage tank. Such sump, cistern or storage tank will be directly connected with the District's distribution facilities.

Section 36(C) Quick Closing or Opening Valves. Quick closing or opening valves shall not be installed on customer's pipes which are directly attached to the mains or service pipes. A customer whose operation requires the use of a quick-opening or closing valve must operate such device from a tank cistern, sump or other facility directly connected with the District's distribution mains or service pipes.

Section 36(D) District Authority to Install Regulators. Under the subsections A, B, and C above, where a customer has installed and is operating the prohibited device, the District may install on its own mains or service pipes adequate regulating or flow control valves or other devices designed to prevent the customer's facilities from interfering with normal pressures maintained in the District's mains and as a safeguard against contamination of the District's water supply, all at the customer's expense.

CALAVERAS COUNTY WATER DISTRICT
RULES AND REGULATIONS GOVERNING THE FURNISHING OF WATER
AND/OR WASTEWATER SERVICES

ARTICLE IV
DOMESTIC SERVICE INSIDE IMPROVEMENT DISTRICTS
(ORIGINAL CONNECTIONS ONLY)

Section 37. Type and Size of Distribution Main. All mains shall be of such type as is approved by the Board of Directors, and no main shall be less than 4 inches in diameter.

Section 38. High Pressure Policy. All owners shall be required to accept such conditions of water pressure and service as are provided by the distribution system at the point of connection, and the District shall not be liable for any damage arising from high or low water pressure.

The District shall strive to maintain normal operating water pressures below 80 psi (static) at the service connection. However, where it is not feasible to reduce system pressure below 80 psi, the service shall be equipped with a pressure regulator set to 60 psi. The regulator shall be installed, owned, and maintained by the owner and at the owner's expense. The regulator shall be on the owner's side of the service.

Section 39. Low Pressure Policy. When a minimum daily water pressure at a lot's water meter is less than 30 psi, CCWD will either furnish a pressure booster system to the property owner or, at CCWD's option, reimburse the property owner up to Seven Hundred Dollars (\$700) for a pressure booster system purchase upon proof of such purchase. Whether CCWD furnishes a pressure booster system or reimburses the property owner, the property owner shall be responsible for installation, insulation, maintenance, repair, operation, and replacement of the said pressure booster system. Only one (1) pressure booster system per lot will be furnished or reimbursed for by CCWD.

Property owner shall enter into a Pressure Booster System Agreement with the District. Said Agreement shall be recorded and run with the property title. Either the General Manager or the District Engineer of CCWD is hereby authorized to enter into a Pressure System Agreement.

Resolution 2001-39, July 11, 2001

CALAVERAS COUNTY WATER DISTRICT
RULES AND REGULATIONS GOVERNING THE FURNISHING OF WATER

Section 35. (continued)

Meter Ownership and Control. Ownership and control of the meter shall be in each and every instance become, be and remain in the District. It is expressly understood that where a meter and other facilities including housings and connections are located in a customer's premises, no rent or other charge will be paid by the District therefor. All meters will be sealed by the District at the time of installation, and no seal shall be altered or broken except by one of the District's authorized employees or agents.

A. Accessory Dwelling: Water service for an accessory dwelling can be provided from the meter of the primary residence only if:

1. The accessory dwelling has been approved by Calaveras County in accordance with the Calaveras County Code Title 17, Chapter 17.66, as may be amended;
2. An accessory dwelling permit from the County is attached to the CCWD application for service;
- 3.
4. The maximum total floor area does not exceed twelve hundred (1,200) square feet.
5. ADUs and JADUs shall be served by the District's water and/or sewer systems only where service is available and consistent with District regulations, capacity limitations, and the requirements of applicable land use authorities.

B. ADUs and JADUs Connection Fee and Capacity Charge:

1. A JADU or ADU described in paragraph 1 of subdivision (a) of Government Code Section 66323, shall not require a new or separate utility connection, and no connection fee or capacity charge shall be imposed.

2. All other ADU or JADU may connect through existing water and sewer service lines and meters serving the primary dwelling, and no connection fee or capacity charge will be imposed if all of the following apply:
 - A. The District Engineer has verified the adequacy of the water meter size based on the standards in the Uniform Plumbing Code, including the primary residence and ADU or JADU, including any fire sprinkler requirements, the meter size and service line is adequate;
 - B. The District Engineer has verified based on the standards in the Uniform Plumbing Code, the adequacy of sewer service for both the ADU or JADU and the primary dwelling, based on the total number of fixture units;
 - C. The maximum total floor area of the ADU does not exceed 750 square feet.
3. If the ADU or JADU meets the requirements of Section 2 above, but the Primary Dwelling is served by a septic tank effluent pump system, the ADU or JADU will need to either install a larger septic tank effluent pump system to handle the ADU or JADU, or install a separate septic tank effluent pump system dedicated specifically for the ADU or JADU as directed by the District Engineer. Any costs incurred by the District in connection with increasing the septic tank or adding a separate system will be borne by the applicant.
4. All ADU or JADU's that do not meet the requirements of item 1 or 2 above, shall be required to install a separate water meter and/or separate sewer lateral, and the connection fee and capacity charge shall be for such new connection shall be charged at fifty five (55) percent of the District's standard connection fee and capacity charge for an equivalent single family unit in the area of the ADU or JADU.
 - A. Additionally, upon connection of the ADU or JADU under this Section 4 to the District's system the ADU and JADU shall be required to pay the bi-monthly water and/or wastewater rates at the current District rate times .55.
 - B. The maximum floor area of an ADU or JADU shall not exceed one thousand two hundred square feet. Should it exceed one thousand two hundred square feet, it shall be required to pay the full District's standard connection fee and capacity charge and shall not be considered an ADU or JADU under this ordinance.

5. In no event shall the fee calculated under this section exceed the maximum connection or capacity charge supported by the District's most recent fee study for an additional EDU.

Should the meter size increase because of the accessory dwelling, additional capacity fees will be charged. Accessory dwellings that no longer qualify as an accessory dwelling, through actions such as a lot split, shall be required to have a separate connection and meter. Application for service and payment of the appropriate capacity fees and rates shall be required.

Resolution 2007-114, December 12, 2007

RULES AND REGULATIONS GOVERNING THE FURNISHING OF WATER
AND/OR WASTEWATER SERVICES

ARTICLE IV
DOMESTIC SERVICE INSIDE IMPROVEMENT DISTRICTS
(ORIGINAL CONNECTIONS ONLY)

Section 36(A) Water Line Cross-Connections. When any water pipe on a customer's premises is cross-connected to another source of water supply or to any possible source of system contamination, the District may refuse or immediately discontinue service until there shall be installed at the expense of the customer a suitable protective device to protect against back flow into the District's system. To further implement a Cross-Connection Program, the District adopts its own requirements, those stated in the California Administrative Code, Title 17, Section 7583 through 7605, inclusive, as adopted by the California State Legislature, June 1987, and as from time to time additions and amendments are made thereto by the California State Legislature.

Section 36(A.1) Detector Check Meter Charge Policy. Where a Detector Check Meter is required by Board policy, the property owner will be required to pay CCWD the standard monthly base charge applicable to a 5/8 metered water service as established by the CCWD Board.

Resolution 2011-09, January 26, 2011

Section 36(B) Pressure Evaluation Restrictions. When a customer receiving service elevates or increases the pressure of the water received by means of a pump of any kind, the pump shall not be attached to any pipe directly connected to the District's main or service pipe.

Such pumping or boosting of pressure shall be done from a sump, cistern or storage tank. Such sump, cistern or storage tank will be directly connected with the District's distribution facilities.

Section 36(C) Quick Closing or Opening Valves. Quick closing or opening valves shall not be installed on customer's pipes which are directly attached to the mains or service pipes. A customer whose operation requires the use of a quick-opening or closing valve must operate such device from a tank cistern, sump or other facility directly connected with the District's distribution mains or service pipes.

Section 36(D) District Authority to Install Regulators. Under the subsections A, B, and C above, where a customer has installed and is operating the prohibited device, the District may install on its own mains or service pipes adequate regulating or flow control valves or other devices designed to prevent the customer's facilities from interfering with normal pressures maintained in the District's mains and as a safeguard against contamination of the District's water supply, all at the customer's expense.

CALAVERAS COUNTY WATER DISTRICT
RULES AND REGULATIONS GOVERNING THE FURNISHING OF WATER

AND/OR WASTEWATER SERVICES

ARTICLE IV DOMESTIC SERVICE INSIDE IMPROVEMENT DISTRICTS (ORIGINAL CONNECTIONS ONLY)

Section 37. Type and Size of Distribution Main. All mains shall be of such type as is approved by the Board of Directors, and no main shall be less than 4 inches in diameter.

Section 38. High Pressure Policy. All owners shall be required to accept such conditions of water pressure and service as are provided by the distribution system at the point of connection, and the District shall not be liable for any damage arising from high or low water pressure.

The District shall strive to maintain normal operating water pressures below 80 psi (static) at the service connection. However, where it is not feasible to reduce system pressure below 80 psi, the service shall be equipped with a pressure regulator set to 60 psi. The regulator shall be installed, owned, and maintained by the owner and at the owner's expense. The regulator shall be on the owner's side of the service.

Section 39. Low Pressure Policy. When a minimum daily water pressure at a lot's water meter is less than 30 psi, CCWD will either furnish a pressure booster system to the property owner or, at CCWD's option, reimburse the property owner up to Seven Hundred Dollars (\$700) for a pressure booster system purchase upon proof of such purchase. Whether CCWD furnishes a pressure booster system or reimburses the property owner, the property owner shall be responsible for installation, insulation, maintenance, repair, operation, and replacement of the said pressure booster system. Only one (1) pressure booster system per lot will be furnished or reimbursed for by CCWD.

Property owner shall enter into a Pressure Booster System Agreement with the District. Said Agreement shall be recorded and run with the property title. Either the General Manager or the District Engineer of CCWD is hereby authorized to enter into a Pressure System Agreement.

Resolution 2001-39, July 11, 2001

AGENDA ITEM

3G

Agenda Item

DATE: August 12, 2026

TO: Michael Minkler, General Manager

FROM: Kevin Williams, District Engineer

SUBJECT: Approval of Tribal Monitoring and Cultural Resource Protection Agreement for the Arnold WWTF Phase 1 Improvements Project

RECOMMENDED ACTION

Motion: _____ / _____ adopting Resolution 2026-__ approving the Tribal Monitoring and Cultural Resource Protection Agreement between Calaveras County Water District (CCWD) and the Calaveras Band of Mi-Wuk Indians for the Arnold WWTF Phase 1 Improvements Project and authorize the General Manager to execute the Agreement, subject to final approval by USDA Rural Development, in an amount not to exceed \$130,488.65

PROJECT DESCRIPTION

The Arnold WWTF Phase 1 Improvements Project is a major capital improvement project that upgrades the District's wastewater treatment facilities to improve reliability, capacity, operational efficiency, and regulatory compliance. Project improvements include a new secondary clarifier, replacement of the RAS/WAS pump station, new aerobic digesters, a new electrical and control building, and associated site, electrical, and SCADA improvements.

BACKGROUND

As part of the environmental review process and USDA funding requirements for the Arnold WWTF Phase 1 Improvements Project, CCWD is required to implement tribal cultural resource protection measures during construction activities involving excavation and disturbance of native soils. The USDA Rural Development Letter of Conditions requires coordination with the Calaveras Band of Mi-Wuk Indians and implementation of tribal monitoring measures to maintain compliance with environmental requirements and reimbursement eligibility. The monitoring requirements are also consistent with the Project's environmental and cultural resource documentation and AB 52 consultation requirements.

The proposed Agreement formalizes procedures for tribal monitoring during grading, excavation, trenching, and other ground-disturbing activities associated with Project construction. CCWD staff will work closely with the Tribe to ensure tribal monitors have access to the Project site whenever earth excavation activities occur in native soils. The Agreement also establishes procedures for protection of cultural resources and treatment of any inadvertent discoveries that may occur during construction.

CCWD has developed a strong and collaborative working relationship with the Calaveras Band of Mi-Wuk Indians and values continued coordination with the Tribe. Approval of this Agreement supports protection of cultural resources, fulfills regulatory and funding requirements, and reinforces the District's commitment to maintaining a positive and productive partnership with the Tribe.

FINANCIAL CONSIDERATIONS

The Agreement establishes a not-to-exceed amount of \$130,488.65 for tribal monitoring and cultural resource protection services, including monitoring labor, travel time, and mileage expenses. The estimated monitoring duration is based on the Contractor's current baseline construction schedule and anticipated durations for ground-disturbing activities. Actual costs will depend on the number of monitoring days ultimately required during construction.

The Agreement will be funded through USDA Rural Development loan proceeds budgeted for the Arnold WWTF Phase 1 Improvements Project. Approval of the Agreement is necessary to satisfy USDA environmental requirements and maintain eligibility for reimbursement of Project costs. Final execution of the Agreement is contingent upon USDA Rural Development approval.

STRATEGIC PLAN ALIGNMENT

This action supports the District's Strategic Plan by ensuring regulatory compliance, protecting environmental and cultural resources, maintaining positive relationships with community partners, and successfully delivering critical wastewater infrastructure improvements funded through external financing.

ATTACHMENTS

1. Tribal Monitoring and Cultural Resource Protection Agreement between CCWD and the Calaveras Band of Mi-Wuk Indians.
2. Resolution

**AGREEMENT
BETWEEN THE CALAVERAS COUNTY WATER DISTRICT
AND THE CALAVERAS BAND OF MI-WUK INDIANS
FOR TRIBAL CULTURAL RESOURCES PROTECTION
AND TRIBAL MONITORING
FOR THE ARNOLD WWTF PHASE 1 IMPROVEMENTS PROJECT**

1. PARTIES

This Agreement is entered into as of the _____ day of _____, 2026, by and between (1) the CALAVERAS BAND OF MI-WUK INDIANS, a state recognized Indian tribe ("TRIBE" or "CBMI") and (2) the CALAVERAS COUNTY WATER DISTRICT ("CCWD"). TRIBE and the CCWD are collectively referred to as "PARTIES".

2. SUBJECT MATTER

This Agreement concerns a project known as Arnold Wastewater Treatment Facility Phase 1 Improvements Project, (hereinafter referred to as "Project"). This Project includes the replacement of the existing Return Activated Sludge and Waste Activated Sludge (RAS/WAS) pump station with a new facility capable of serving two clarifiers, the addition of a new secondary clarifier to provide redundancy, and improved clarification performance during peak flows. This Project also includes the removal and replacement of obsolete electrical equipment and the construction of a new dedicated electrical room to provide sufficient breaker capacity for the added clarifier, digester, and blowers. Lastly, the Project will perform associated improvements to site piping, power distribution, utility power supply, instrumentation, and PLC/SCADA controls. This Project must maintain environmental compliance with the National Environmental Protection Act (NEPA) and the California Environmental Quality Act (CEQA). CCWD is the Lead Agency for CEQA and the United States Department of Agriculture (USDA) is the NEPA Lead Agency.

3. PURPOSE

This Agreement formalizes procedures for tribal monitoring during all grading, groundbreaking, excavation, and ground-disturbing activities performed in conjunction with the Project development, in areas where native soils will be disturbed (excavated/trenched) within the Project limits located at 3294 Hwy 4, Arnold, California, 95223. This Agreement is entered into pursuant to the Environmental Requirements identified in the USDA's Rural Development Letter of Conditions to CCWD dated March 26, 2025 ("Letter").

4. CULTURAL AFFILIATION

The PARTIES agree that the Project area consists of land which has been traced to and traditionally occupied by the TRIBE. TRIBE is culturally affiliated with Calaveras County and manages tribal cultural resources and sacred sites within its ancestral territory. Any human remains, and burial-related items as defined in Section 7 which are found in conjunction with the

development of this Project shall be treated in accordance with Sections 5 through 8 of this Agreement. Tribal cultural resources shall be treated in accordance with Section 10 of this Agreement. Significant sites shall be treated in accordance with Section 11 of this Agreement.

5. MOST LIKELY DESCENDANT

The TRIBE was determined to the Most Likely Descendant ("MLD") under California Public Resources Code Section 5097.98 by the Native American Heritage Commission ("NAHC"). If additional Native American human remains are found during development of this Project, the PARTIES understand that the determination of MLD under California Public Resources Code Section 5097.98 will be made by the NAHC. Until such time, neither the TRIBE nor CCWD guarantees that the TRIBE or one of its members will be so named. However, given the location of the site and the history and prehistory of the area, the PARTIES agree that their good faith belief is that if such Native American human remains are discovered at the Project site, the TRIBE or one of its members will be named the MLD.

Should the NAHC determine that a member of an Indian tribe other than the TRIBE is the MLD, the provisions of this Agreement relating to the treatment of such Native American human remains shall be null and void in their entirety.

6. COORDINATION WITH CORONER'S OFFICE

Pursuant to the Environmental Requirements identified in the Letter, and in accordance with Public Resources Code Section 5097.98 and Health and Safety Code Section 7050.5, CCWD shall immediately contact the Calaveras County Coroner and the TRIBE in the event any human remains are discovered during the development of the Project.

7. INADVERTANT DISCOVERIES

The PARTIES' intent is to avoid disturbing human remains through consultation and appropriate avoidance, with mitigation as a secondary option.

If Native American human remains are found during development of the Project, the following provisions shall apply:

1. The term "Native American human remains" encompasses more than human bones because the TRIBE's traditions call for burial of associated tribal cultural resources with the deceased (grave goods, funerary objects, ceremonial items, and objects of cultural patrimony), and any cremations or ceremonial burning of funerary objects, grave goods and animals. Ashes and other remnants of these burning ceremonies, as well as grave goods and funerary objects, associated with or buried with Native American remains, are to be treated in the same manner as bones, bone fragments and cremations.

2. The Coroner shall immediately be notified, ground disturbing activities in that location shall cease, and the remains shall be left in the place where they were discovered until the Coroner has had the opportunity to inspect the remains in place and make his/her determinations as required by State law, and until a final decision as to the treatment and/or disposition has been made pursuant to this Agreement and to State law.

3. Pursuant to the Initial Study and Mitigated Negative Declaration, and the Archeological Management Data Recovery Plan, ground disturbing activities within sixty (60) feet of the discovery shall immediately cease, and the remains shall be secured in situ. The archeologist or cultural monitor shall immediately contact Debra Lynn Grimes, the CBMI Tribal Cultural Resource Specialist (“TCRS”) who will work with the MLD to schedule a site visit. The MLD, pursuant to California Public Resources Code Section 5097.98(a), shall be allowed to: (a) inspect the site of the discovery; (b) make recommendations to the property owner as to how the human remains and associated funerary objects should be treated and/or re-interred with appropriate dignity, if necessary. The recommendations will be issued by the TRIBE to CCWD within 48 hours or will request consultation with CCWD.

8. TRIBAL MONITORING

Given the nature and sensitivity of the archaeological sites and tribal cultural resources that are or may be in the Project area, the TRIBE may designate one monitor representative to be retained as the Tribal monitor during all grading, groundbreaking, excavation, and ground disturbing activities performed in conjunction with the Project development in areas where native soils will be disturbed (excavated/trenched) .

CCWD may have construction inspectors on the PROJECT site during ground disturbing activities. If human remains and burial of associated cultural items, as defined in this Agreement, are found during development of the Project, tribal monitors are empowered to instruct CCWD and the onsite construction inspector to temporarily halt and/or relocate grading or excavation activities within sixty (60) feet pending further evaluation by the TRIBE of the significance of the discovery and further investigation by the Calaveras County Coroner and the TRIBE, pursuant to California Health & Safety Code Section 7050.5.

For purposes of determining Tribal monitoring crew sizes, CCWD shall notify the TCRS at least forty-eight (48) hours prior to scheduled excavation, testing, grading, or ground-disturbing activities of native soils. For purposes of this Agreement, “notice” must be given during normal business hours (i.e., Monday-Friday from 7:30 a.m. to 4:00 p.m.) to be proper notice. Following any rescheduling or interruption of scheduled activities, CCWD will give the TRIBE forty-eight (48) hours’ notice before activities resume.

9. COMPENSATION AND INSURANCE

The PARTIES agree that the Tribal Monitors are employees of the TRIBE, and that CCWD shall compensate the TRIBE at an hourly rate of \$242.00 per hour for the time spent by the Tribal Monitor at the Project site during ground-disturbing construction activities, based upon a daily monitoring log maintained by the Tribal Monitor. CCWD shall compensate the TRIBE for the automobile transportation expenses of the Tribal Monitor at the mileage rate established by the United States, which is currently set at 72.5 cents per mile. The TRIBE shall invoice CCWD for Tribal Monitoring expenses on a monthly basis and shall include copies of the daily monitoring logs supporting the hours reported on the invoice. CCWD shall remit payment to the TRIBE within 45 days of receipt of TRIBE invoices. The total compensation payable by CCWD to TRIBE for monitoring under this Agreement shall not exceed \$130,488.65 (one hundred thirty thousand four hundred eighty-eight dollars and sixty-five cents) except by a written amendment

of this Agreement approved by the PARTIES. The total compensation is further identified in the Calaveras Band of Mi-Wuk's fee schedule included as Exhibit "A" and the Tribal Monitoring & Cultural Resource Protection Estimate as Exhibit "B".

The TRIBE recognizes that dangerous working conditions can exist at a work site, particularly during grading and excavation operations. The Tribal Monitor shall review safety procedures as specified by the Project manager and shall attend all safety meetings.

The TRIBE will provide insurance coverage for the Tribal Monitor. The insurance includes workers' compensation, liability, use of a private vehicle and errors and omissions.

CCWD agrees the TRIBE will invoice CCWD for the Tribal Monitors' compensation on a monthly basis. Invoices shall reference the Purchase Order and project number shown on the purchase order form. Each invoice shall also include the total invoiced and paid to date, and the remainder outstanding. Invoices received without this information shall be returned to the TRIBE unpaid, for revision and re-submittal. The TRIBE will invoice CCWD at:

Calaveras County Water District
Attn: Engineering
120 Toma Court
San Andreas, CA 95249

CCWD agrees to remit payment in full to the following address within forty-five (45) days of receipt of the TRIBE's invoice:

Calaveras Band of Mi-Wuk Indians
PO Box 899
West Point, CA 95255

10. NON-DISCLOSURE OF LOCATION OF REBURIALS

It is understood by the PARTIES that, unless otherwise required by law, the site of any reburial of Native American human remains shall not be disclosed and will not be governed by public disclosure requirements of the California Public Records Act, Cal. Govt. Code § 6250 et seq. The PARTIES agree that CCWD shall withhold public disclosure of information related to such reburial pursuant to the specific exemption set forth in California Government Code Section 6254(r).

11. TREATMENT OF TRIBAL CULTURAL RESOURCES

CCWD will treat all tribal cultural resources, including ceremonial items, associated funerary objects, sacred objects, and items of cultural patrimony, as described in the Letter, consistent with the Tribe's cultural values and practices as determined by the Tribe.

12. SIGNIFICANT SITES IMPACTED BY PROJECT

The PARTIES agree that if additional significant site or sites not identified as significant in the Project environmental review process, are identified by a qualified archaeologist within the Project site, they will be evaluated by a qualified archaeologist in coordination with the TRIBE.

Additional mitigation measures may be necessary to treat sites in a culturally appropriate manner consistent with CEQA and/or NEPA guidelines, whichever is more stringent, for mitigation of impacts to tribal cultural resources and as described in the Letter.

If an additional significant site or sites not previously recorded/identified as significant are discovered within the Project site, the PARTIES commit to developing an action plan within 48 hours to get the Project reinitiated which may include additional avoidance and/or mitigation measures to address Tribal Cultural Resource (TCR) protection and preservation.

13. NOTICES

All notices to the PARTIES, shall be given by hand delivery, United States mail, or email as set forth below:

To CCWD:

calaverasmiwukpreservation@gmail.com

14. SUCCESSORS AND ASSIGNS

This Agreement shall be binding upon and inure to the benefit of the heirs, successors, representatives, executors, administrators, and assigns of the PARTIES, including contractors and sub-contractors, and any person or entity obligated to comply with environmental and cultural/archaeological protection laws applicable to this Project.

15. ENVIRONMENTAL COMPLIANCE

Nothing in this Agreement shall excuse CCWD from its obligations under any applicable state or federal laws or regulations, including but not limited to the National Environmental Protection Act (NEPA); California Environmental Quality Act (CEQA); Public Resources Code § 21000 et seq., the National Historic Preservation Act (“NHPA”) 16 U.S.C. § 470 et seq.; California Public Resources Code Sections 5097.98, 5097.98(c), and 5097.99; California Health and Safety Code Sections 7050.5(c); California Government Code Section 6254, 65040.2, 65092, 65351, 65352, 65560, 65352.3, 65352.4, 65562.5; California Civil Code 815.3; the Native American Graves Protection and Repatriation Act, 25 U.S.C. § 3001 et seq.; the California Native American Graves Protection and Repatriation Act of 2001, California Health and Safety Code §§8010 et seq.; the American Indian Religious Freedom Act, 16 U.S.C. § 1996, et seq., and the First Amendment to the United States Constitution. Nothing in this Agreement is intended to make any of the above-referenced laws applicable where such laws would otherwise be inapplicable.

16. SEVERABILITY

Should any part of this Agreement be found by any court or CCWD of competent jurisdiction to be to any extent invalid or unenforceable, the remainder of this Agreement shall not be affected thereby and shall be valid and enforceable to the fullest extent permitted by law.

17. LIMITATION ON SCOPE

This Agreement is unique to this PROJECT only and does not set a precedent for other projects.

18. AUTHORITY TO EXECUTE

Each of the persons executing this Agreement expressly warrants that he or she is authorized to do so on behalf of the entity for which he or she is executing this Agreement. Each party to this Agreement represents and warrants that this Agreement is executed voluntarily, with full knowledge of its significance.

19. COUNTERPARTS

This Agreement may be signed in two or more counterparts and will be effective when all PARTIES and signatories have affixed their signatures to two or more of the counterparts and said counterparts have been delivered to all PARTIES, at which time the counterparts together will be deemed one original document.

IN WITNESS WHEREOF, the PARTIES have executed this Agreement as of the day, month and year first above written.

Notice: Fiscal Yearly Increase Allowance. - Year 2026

Dear Agency.

The Calaveras Band of Mi-Wuk Indians have their fiscal year on January 1st of each new year.

The increase will be of the allowance from the cost of living and doing business in which is reviewed under the Federal Allowance.

The Calaveras Band of Mi-Wuk Indians understand other departments may have different months of each year of their fiscal year allowance. Tribe appreciates all agencies understanding our increase allowance starts for our fiscal year that begin on January 1st of each new year.

Please work close with tribe incase there may be existing contracts that may run into our fiscal year to make these adjustments.

The rate of overtime is billed after 8hrs per day. If there is work on Saturday & Sunday this is overtime. If a company decide to only work on a Saturday or Sunday through the week, it still is overtime for tribal monitors.

What triggers the per diem is if our Cultural Native Monitor is 3hrs round trip to have the option of staying or traveling back home. Different conditions that warrant worker safety.

These hourly rates include overhead "taxes" to cover doing business.

Hourly Rate: \$242.00

Overtime Rate: 250.00

Travel: \$242.00 per hour

Mileage: \$0.725 per mile

Rental: \$106.97 per day

Per Diem – Meals: \$74.00 per day

Per Diem – Hotel: 135.00 per day

Sincerely,

Calaveras Band of Mi-Wuk Indians

RESOLUTION NO. 2026-____
A RESOLUTION OF THE BOARD OF DIRECTORS OF THE
CALAVERAS COUNTY WATER DISTRICT
APPROVING THE TRIBAL MONITORING AND CULTURAL RESOURCE
PROTECTION AGREEMENT WITH THE CALAVERAS BAND OF MI-WUK INDIANS
FOR THE ARNOLD WASTEWATER TREATMENT FACILITY PHASE 1
IMPROVEMENTS PROJECT

WHEREAS, the CALAVERAS COUNTY WATER DISTRICT ("District") is undertaking the Arnold Wastewater Treatment Facility Phase 1 Improvements Project ("Project"), a capital improvement project intended to improve reliability, capacity, operational efficiency, and regulatory compliance of the District's wastewater treatment facilities; and

WHEREAS, the Project is subject to environmental review and mitigation requirements under the National Environmental Policy Act ("NEPA"), the California Environmental Quality Act ("CEQA"), and Assembly Bill 52 ("AB 52"), which require consultation with California Native American Tribes and implementation of measures to protect tribal cultural resources; and

WHEREAS, USDA Rural Development has required implementation of tribal monitoring and cultural resource protection measures as a condition of Project funding and reimbursement eligibility; and

WHEREAS, the District has coordinated with the Calaveras Band of Mi-Wuk Indians throughout Project planning and environmental review and values its collaborative and productive relationship with the Tribe; and

WHEREAS, the District and the Calaveras Band of Mi-Wuk Indians have negotiated a Tribal Monitoring and Cultural Resource Protection Agreement that establishes procedures for tribal monitoring during construction activities involving excavation and disturbance of native soils, protection of cultural resources, and treatment of inadvertent discoveries; and

WHEREAS, the Agreement establishes a compensation amount of One Hundred Thirty Thousand Four Hundred Eighty-Eight Dollars and Sixty-Five Cents (\$130,488.65), and actual payments shall be based solely on the quantity of monitoring services performed and documented during construction activities requiring tribal monitoring; and

WHEREAS, the District is committed to prudent fiscal management and will coordinate construction activities with the Contractor and the Tribe to ensure tribal monitoring occurs only when required to maintain compliance with NEPA, CEQA, AB 52, USDA Rural Development requirements, and applicable cultural resource protection measures.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Calaveras County Water District as follows:

1. The Board finds that approval of the Tribal Monitoring and Cultural Resource Protection Agreement is necessary to satisfy environmental compliance obligations under NEPA, CEQA, AB 52, and USDA Rural Development funding requirements.
2. The Board hereby approves the Tribal Monitoring and Cultural Resource Protection Agreement between the Calaveras County Water District and the Calaveras Band of Mi-Wuk Indians in an estimated amount of \$130,488.65. Actual compensation shall be based upon the quantity of tribal monitoring services performed during constructions.
3. The General Manager is authorized and directed to execute the Agreement and any minor, non-material amendments thereto, subject to final approval by USDA Rural Development and review as to form by District Counsel.
4. The General Manager and District staff are authorized to take all actions necessary to implement the Agreement and maintain compliance with applicable environmental, cultural resource, and funding requirements associated with the Project.
5. District staff shall coordinate construction activities with the Contractor and the Tribe in advance to schedule excavation and other ground-disturbing work efficiently, ensuring tribal monitors are present only when required and minimizing costs while maintaining full compliance with applicable environmental and cultural resource protection requirements.

SUBJECT: Discussion/Action Regarding Acceptance of the Copper Cove Water Treatment Plant Filters 1 and 2 Rehabilitation Project CIP #11136

RECOMMENDED ACTION:

Motion ____/____ adopting Resolution No. 2026-__ accepting the Copper Cove Water Treatment Plant Filters 1 and 2 Rehabilitation Project, CIP # 11136, as being completed by ERS Industrial Services, Inc. and directing a Notice of Completion.

BACKGROUND:

ERS Industrial Services, Inc. successfully completed the rehabilitation of both filters at the Copper Cove Water Treatment Plant. The project included removing all the old filter media and gutting out the inside of the filters. Followed by sandblasting the whole inside of the filter body and recoating. Clarifier screens, filter media, and all valving were replaced on both filters.

The District is very pleased with the quality and professionalism of ERS Industrial Services Inc. work and looks forward to collaborating with them on future projects.

Project Budget - \$726,270.00 Invoiced Amount - \$726,270.00

FINANCIAL CONSIDERATIONS:

Funding for this project if from Capital R&R Fund 325.

RESOLUTION NO. 2026 –

**A RESOLUTION OF THE BOARD OF DIRECTORS
OF THE CALAVERAS COUNTY WATER DISTRICT**

WHEREAS, the Plant Operations Manager of the Calaveras County Water District (CCWD) has executed a Notice of Completion for the COPPER COVE WATER TREATMENT PLANT FILTERS 1 & 2 REHABILITATION PROJECT (CIP 11136), verifying that all work is completed pursuant to the contracts between said CCWD and ERS INDUSTRIAL SERVICES, INC., and;

WHEREAS, it appears to the satisfaction of this Board that said work under the subject Construction Agreement has been fully completed and performed as required in said Agreement and the plans and specifications therein referred.

NOW, THEREFORE, BE IT RESOLVED, by the Board of Directors of CALAVERAS COUNTY WATER DISTRICT that:

1. Acceptance of completion of said work is hereby made and ordered.
2. The Clerk to the Board of CCWD is hereby directed to record with the Calaveras County Recorder the Notice of Completion, pursuant to Section 3093 of the Civil Code of the State of California.

PASSED AND ADOPTED this 12th day of August, 2026 by the following vote:

AGENDA ITEM 4C

Agenda Item

DATE: August 12, 2026

TO: Michael Minkler, General Manager

FROM: Andrew Renshaw, Water Resources Manager

SUBJECT: Discussion/Action regarding wholesale water purchase agreement with East Bay Municipal Utilities District

RECOMMENDED ACTION:

Motion: Adopting Resolution No. 2026-_____ approving the Wholesale Water Purchase Agreement between Calaveras County Water District (CCWD) and East Bay Municipal Utility District (EBMUD).

BACKGROUND

CCWD and EBMUD have a longstanding water resources relationship in the Mokelumne River watershed. CCWD holds pre-1914 and post-1914 water rights on Bear Creek. EBMUD owns and operates Pardee and Camanche Reservoirs and provides water service within the Camanche Area South Shore (CASS) recreation area. Under a 1964 agreement, CCWD may divert up to 400 acre-feet annually from Bear Creek for the West Point service area, with a maximum diversion rate of 6 cubic feet per second. The West Point water treatment plant produces approximately 190 acre-feet annually on average. The CASS recreation area is not currently served by a secured water right.

CCWD also has a contract with Calaveras Public Utility District (CPUD) to purchase up to 200 acre-feet of water per year from CPUD's Middle Fork Mokelumne River water rights when Bear Creek flows are insufficient. The CCWD-CPUD contract established a rate of \$150 per acre-foot, subject to annual adjustment.

Over the course of the last several years, CCWD and EBMUD have explored utilizing CCWD's pre-1914 Bear Creek water right to transfer water to EBMUD for use at CASS. In June 2026, CCWD and EBMUD developed a draft water purchase agreement for the Board's consideration.

DISCUSSION

The proposed Wholesale Water Purchase Agreement would allow CCWD to make up to 150 acre-feet per year of untreated raw water from CCWD's Bear Creek pre-1914 water right available for EBMUD's beneficial use within the Camanche Area South Shore.

Key provisions of the agreement are presented below:

- EBMUD will annually provide CCWD with a request for water based on annual forecasted CASS water demands for the next calendar year, not to exceed 150 acre-feet.
- EBMUD will pay CCWD for each acre-foot of water that is requested by EBMUD and made available by CCWD at the adjusted CPUD rate in effect at the time the water is made available to EBMUD plus a 20% markup. The current 2026 CPUD rate is \$172.43 per acre-foot.
- EBMUD will take ownership of the water at the USGS Gage 11317000 located downstream of CCWD's Middle Fork Pumping Plant.
- EBMUD, in consultation with CCWD, will prepare a technical memorandum evaluating regional water supply options for the agencies shared customer communities in the Camanche South Shore area (CASS, Burson, and Wallace).

The agreement provides mutual benefits to both agencies. CCWD would retain ownership of its Bear Creek pre-1914 water right while receiving compensation for available Bear Creek water. The agreement also creates a collaborative process for CCWD and EBMUD to evaluate regional water supply solutions for CASS, Burson, and Wallace, including use of existing infrastructure, potential new facilities, and possible consolidation mechanisms.

STRATEGIC PLAN INITIATIVES:

The agreement supports Strategic Plan objectives related to partnerships and water reliability by allowing CCWD to leverage its water-right assets, strengthen regional agency relationships, and evaluate shared supply solutions that support residents, businesses, and the watershed. Specific objectives include:

PI-04: Consider water transfers and exchanges, as allowed by our permitted water rights, consistent with the District's integrated water management strategy.

PP-04: Continue to develop relationships with local, regional, state, and federal partners to manage our District's risk and leverage our assets.

FINANCIAL CONSIDERATIONS:

The agreement is not expected to create new costs for CCWD because the District already maintains the Bear Creek water right involved in the proposed transfer and CCWD will be compensated for its administrative costs. CCWD and EBMUD expect the agreement to fall under Class 1 CEQA exemption. Class 1 exemptions under CEQA cover projects involving existing public or private structures, facilities, mechanical equipment, or topographical features where the project does not significantly expand the current use.

Based on the current 2026 CPUD rate and the 20% markup, CCWD could receive over \$30,000 per year in revenue if EBMUD requests and CCWD makes available the full annual amount.

Attachments:

Resolution 2026-__ approving the Wholesale Water Purchase Agreement between Calaveras County Water District (CCWD) and East Bay Municipal Utility District (EBMUD).

Wholesale Water Purchase Agreement Between Calaveras County Water District and East Bay Municipal Utility District

**WHOLESALE WATER PURCHASE AGREEMENT BETWEEN
CALAVERAS COUNTY WATER DISTRICT AND
EAST BAY MUNICIPAL UTILITY DISTRICT**

THIS AGREEMENT (“Agreement”) is made this ____ day of _____, 2026 by and between Calaveras County Water District (“CCWD”), a county water district, and East Bay Municipal Utility District (“EBMUD”), a municipal utility district. CCWD and EBMUD are collectively referred to herein as the “Parties” and individually as a “Party.”

RECITALS

A. EBMUD is a public water provider with a primary service area in Alameda County and Contra Costa County. EBMUD holds water rights on the Mokelumne River and owns and operates facilities located in whole or part within Calaveras County to serve its primary service area.

B. CCWD is a public water provider which provides retail service to certain unincorporated portions of Calaveras County and wholesale service to customers located throughout Calaveras County.

C. CCWD possesses two rights to divert water from Bear Creek, a tributary to the Middle Fork of the Mokelumne River: a pre-1914 right claimed under Statement 28800 (the “Bear Creek Pre-1914 Right”), and a 1927 right issued under Application 5648D as Permit 15452 (the “Bear Creek Post-1914 Right”). CCWD uses these rights to supply water to its West Point service area.

D. An agreement between EBMUD and CCWD dated December 22, 1964 (“1964 Agreement”) establishes that CCWD shall not divert for use in the West Point service area more than 400 acre-feet per year collectively under the Bear Creek Pre-1914 Right and the Bear Creek Post-1914 Right, nor at a rate exceeding 6 cubic feet per second.

E. CCWD has entered into a contract with Calaveras Public Utility District (“CPUD”) which entitles CCWD to purchase up to 200 acre-feet of water per year from CPUD sourced from rights held by CPUD on the Middle Fork of the Mokelumne River, which CCWD diverts at its Middle Fork Pumping Plant. CCWD pays CPUD for such water at a contract rate of \$150 per acre-foot, subject to adjustment commensurate with the Consumer Price Index, West Region (“CPI”) April-to-April percentage change in index value starting July 1, 2023 and each year thereafter on the first day of July. The rate paid by CCWD to CPUD under that contract at a given time, including all annual adjustments made by CCWD and CPUD, is hereinafter referred to as the “Adjusted CPUD Rate”.

F. EBMUD owns and operates Pardee and Camanche Reservoirs, which are partially located within Calaveras County. Camanche Reservoir is located on the Mokelumne River downstream of EBMUD’s Pardee Reservoir, which is downstream of Bear Creek. EBMUD owns property adjacent to Camanche Reservoir known as the Camanche Area South Shore (“CASS”), located entirely within Calaveras County. The Mokelumne River and relevant facilities are depicted on the map attached hereto as Exhibit A.

G. EBMUD constructed the CASS Water Treatment Plant (“CASS WTP”) in 1973 and completed major upgrades in 2018 to provide treated water for domestic uses upon the CASS property, including campgrounds, cottages, motel units, mobile homes and marinas. EBMUD desires to obtain a supply of untreated raw water to wheel through its facilities to supply domestic needs within CASS. The permitted capacity of CASS WTP is 0.5 MGD, expandable to 2.5 MGD. CASS WTP can be supplied by both Camanche Reservoir and Pardee Reservoir.

H. EBMUD plans to add facilities to the CASS distribution system to serve the recreation area at Camanche Area North Shore (“CANS”).

I. CCWD is willing to sell a supply of untreated raw water made available under its Bear Creek Pre-1914 Right to supply domestic needs within CASS to EBMUD on the terms set forth herein, and EBMUD is willing to enter into this Agreement to purchase such water.

AGREEMENT

1) Incorporation of Recitals. The recitals set forth above are hereby incorporated into this Agreement by reference. Each Party represents that the recitals concerning it are true and correct.

2) Term of Agreement. This Agreement shall become effective on the first day it has been duly executed by both Parties (“Effective Date”) and shall remain in effect thereafter unless terminated under Paragraph 17 (“Termination”).

3) Request for Water. On or before each December 1 after the Effective Date of this Agreement, if EBMUD desires to receive any quantity of water under this Agreement in the following year, it shall provide a written notice via email to CCWD of EBMUD’s annual forecasted CASS water demands for the next calendar year, not to exceed 150 acre-feet. This notice is hereinafter referred to as the “Request for Water.” EBMUD may alter the Request for Water throughout the year in its sole discretion as it determines necessary to provide a sufficient and reliable water supply for CASS.

4) Water Made Available. CCWD shall make available to EBMUD at the Point of Delivery defined in Paragraph 7 (“Point of Delivery”) the quantity of water specified in the Request for Water, which shall not exceed 150 acre-feet per calendar year. The source of water for this Agreement shall be the Bear Creek Pre-1914 Right.

5) Payment for Water. EBMUD shall pay CCWD for each acre-foot of water that is requested by EBMUD and made available by CCWD at the Point of Delivery as verified using the measurements specified in Paragraph 8.a below. EBMUD shall pay the Adjusted CPUD Rate in effect at the time the water is made available to EBMUD plus a 20% markup. CCWD shall inform EBMUD of changes to the Adjusted CPUD Rate annually and upon request by EBMUD. CCWD shall annually invoice EBMUD, and EBMUD shall make payment within 60 days of receipt.

6) Diversion, Storage, and Beneficial Use. The water made available by CCWD, less any losses as determined by EBMUD, may be directly diverted by EBMUD or stored in Pardee Reservoir or Camanche Reservoir using existing facilities and serving demand previously served

by other water sources. EBMUD shall put the water so diverted or stored to reasonable and beneficial use within CASS except as the Parties may otherwise agree in writing.

7) Point of Delivery. EBMUD shall take possession of the water made available under this Agreement at the point adjacent to and immediately downstream of EBMUD's Middle Fork flow gage (USGS Gage 11317000) located downstream of CCWD's Pumping Plant on the Middle Fork. Such point is referred to as the "Point of Delivery" in this Agreement. As between the Parties, EBMUD shall be solely responsible for the water made available under this Agreement below the Point of Delivery.

8) Feasibility of Regional Water Supply. EBMUD, in consultation with CCWD, will prepare a technical memorandum evaluating regional water supply options for the Parties' shared customer communities in the Camanche South Shore area (CASS, Burson, and Wallace). The technical memorandum will assess practical and collaborative solutions to meet regional demand by enhancing existing infrastructure or constructing new facilities including evaluating, at minimum, the feasibility of the following:

- a) The estimated cost and conceptual engineering components for expansion of the existing CASS WTP capacity beyond 0.5 MGD and alignment and linear feet of pipe of a treated water transmission line from the CASS WTP to serve additional communities in the Camanche South Shore area (i.e., Wallace and Burson). The transmission line would act as the foundational infrastructure for developing a system(s) to serve those communities with treated surface water.
- b) The estimated cost and conceptual engineering components, such as alignment and linear feet of pipe, of a raw water transmission line from the CASS WTP raw water intake facilities to CCWD's Wallace service area water treatment plant.

In light of the above potential infrastructure developments, the technical memorandum may also evaluate whether there is a mechanism to consolidate the CASS system with CCWD's system and what the benefits and challenges of such a consolidation effort may be. EBMUD will finalize the technical memorandum and associated deliverables by December 31, 2028 (or other date agreed in writing by the Parties). EBMUD will fund the cost of preparing the technical memorandum, excluding any staff time or other in-kind contributions from CCWD or other public agencies. While EBMUD shall have discretion over the scope and drafting of the technical memorandum, it will consult with CCWD to endeavor to meet their shared objectives.

9) Measurement.

a) Of Water Made Available. CCWD shall measure (i) total flow in Bear Creek above the point defined in Statement 28800 as the "Bear Creek Diversion," and (ii) total combined diversions from Bear Creek by CCWD at the Bear Creek Diversion whether made under the Bear Creek Pre-1914 Right or the Bear Creek Post-1914 Right. CCWD shall make such data available to EBMUD, in volume and rate, upon request. EBMUD shall measure the flow downstream of CCWD's pumping plant on the Middle Fork, at USGS Gage 11317000, and make such data available to CCWD upon request to verify that requested water was made available at the Point of

Delivery. See Exhibit B for flow measurement locations and methodology to calculate and verify Water Made Available.

b) Of Beneficial Use. A schematic of the water treatment system that serves CASS is attached hereto as Exhibit C and incorporated herein by reference. EBMUD shall measure and calculate the quantity of water beneficially used by EBMUD to serve CASS as described in Exhibit C.

10) Meters. EBMUD shall be responsible for installing, operating, maintaining, and replacing flow meters at the points of measurement specified in Paragraph 8.a and 8.b and Exhibits B and C that are designated as EBMUD's responsibility. CCWD shall be responsible for the same with respect to flow meters at the points of measurements specified in Paragraph 8.a and Exhibit B that are designated as CCWD's responsibility. All such water meters must comply with applicable State Water Resources Control Board ("SWRCB") measurement and reporting requirements.

11) Reporting. EBMUD shall provide a report to CCWD of the monthly quantity of water obtained under this Agreement that was diverted by EBMUD under this Agreement and put to beneficial use within CASS for each water year (October 1 to September 30) by November 30 of the subsequent water year (or other date agreed in writing by the Parties). CCWD is responsible for timely reporting CASS diversions and beneficial use under its Bear Creek Pre-1914 Right according to applicable SWRCB procedures.

12) Losses. As between the Parties, EBMUD shall be solely responsible for quantifying and bearing any carriage and channel losses between the Point of Delivery and CASS. The quantity specified on the Request for Water provided by EBMUD shall be deemed to include water for carriage and channel losses below the Point of Delivery.

13) CCWD Diversions. The Parties agree the water to be made available under this Agreement, being sourced from the Bear Creek Pre-1914 Right, is within the 1964 Agreement's limitation on annual diversions. Accordingly, CCWD's diversions for use in the West Point service area under any water right described in paragraph 2 of the 1964 Agreement, together with all water it makes available from its Bear Creek Pre-1914 Right to EBMUD under this Agreement, shall not collectively exceed 400 acre-feet per year or 6 cubic feet per second.

14) Ownership.

a) CCWD shall maintain ownership of its Bear Creek Pre-1914 Right. CCWD shall submit Statements of Water Diversion and Use or other required documents to the SWRCB to maintain the Bear Creek Pre-1914 Right. CCWD shall make all reasonable efforts to protect and defend and otherwise maintain its Bear Creek Pre-1914 Right so as to fulfill its obligations to EBMUD under this Agreement.

b) EBMUD shall assume exclusive ownership at the Point of Delivery of water made available under this Agreement, including any portion of such water that EBMUD may store in Pardee and Camanche Reservoirs. EBMUD shall own and maintain responsibility for all facilities downstream of the Point of Delivery which are necessary to divert, store, and treat water for beneficial use upon the CASS property.

15) Water Quality. EBMUD acknowledges that CCWD shall make raw untreated water available to EBMUD, and that such water will require additional treatment by EBMUD for consumptive use. EBMUD shall be responsible for all water quality testing, treatment, and other steps required to make the untreated water provided by CCWD suitable for the intended uses. CCWD shall promptly inform EBMUD upon learning of any known water quality or conditions that could compromise water quality for the intended beneficial uses within CASS. EBMUD further acknowledges that CCWD makes no warranty or representation regarding water quality nor does CCWD bear any obligation for any level of water quality for water made available under this Agreement.

16) Temporary Suspension or Reduction. EBMUD acknowledges that the water available to it under this Agreement may be temporarily suspended or reduced due to a facility outage or emergency. CCWD shall give EBMUD as much prior notice as feasible of any such temporary suspension or reduction, but if prior notice is infeasible under the circumstances then CCWD shall notify EBMUD as soon as practicable.

17) Termination.

a) Unilateral Termination without Cause. Either party may terminate this Agreement for any reason and without cause by providing the other party with at least one hundred eighty (180) days' prior written notice of its intent to terminate, and such termination shall become effective on the 180th day following receipt of such notice or any later date stated in the notice or agreed in writing by the Parties.

b) Mutual Termination without Cause. The Parties may terminate this Agreement any time by mutual written agreement, which shall take immediate effect unless the Parties otherwise agree in writing.

c) Termination for Cause. Either Party may terminate this Agreement for cause if the other Party has failed to perform its obligations under this Agreement and to cure such failure within 30 days of the date of written notice of such failure.

d) Effect of Termination. If this Agreement is terminated, upon the effective date of the termination neither Party will have any further liability or obligation to the other, except for the obligation to pay for water made available prior to termination.

18) Notices. All notices, statements, reports, approvals, requests, invoices or other communications that are required either expressly or by implication to be given by either Party to the other under this Agreement shall be in writing and signed for each Party by such officers authorized to sign on such Party's behalf. All such notices shall be deemed to have been received on the date of delivery if delivered personally or delivered by a commercially recognized overnight courier service, or three days after mailing if enclosed in a properly addressed and stamped envelope and deposited in a United States Post Office for delivery. Unless and until formally notified otherwise, all notices shall be addressed to the Parties at their addresses as shown below:

Manager of Water Resources
Calaveras County Water District
120 Toma Court
San Andreas, California 95249

Director of Water & Natural Resources
East Bay Municipal Utility District
375 11th Street, MS 901
Oakland, California 94607

A Party may change its designated address for receiving notice by sending notice to the other Party in the manner set forth above. Notwithstanding the foregoing, the Parties may communicate by email to submit or respond to a Request for Water, to coordinate operations, to request, transmit, or verify data, and the like, except to the extent either Party objects to email communication by giving written notice to the other Party in the manner set forth above.

19) Opinions and Determinations. Where the terms of this Agreement provide for action to be based upon opinion, judgment, approval, review or determination of either Party hereto, such terms are not intended to be and shall never be construed as permitting such opinion, judgment, approval, review or determination to be arbitrary, capricious or unreasonable.

20) Cooperation. Each Party to this Agreement agrees to do all things that may be necessary, including, without limitation, the execution of all documents which may be required hereunder, in order to implement and effectuate this Agreement.

21) Inspection of Books and Records. The employees and agents of each Party shall have full access at all reasonable times to the account books and official records of the other Party insofar as the same pertain to the matters and things provided for in this Agreement, excluding any records subject to the attorney-client, work product, or other applicable legal privilege, with the right at any time during office hours to make copies thereof at the requesting Party's expense.

22) Modification. Except as expressly provided herein, this Agreement may be modified only by a written amendment signed by both Parties.

23) Limitation on Waiver. Any waiver at any time by either Party hereto of its rights with respect to a breach or default, or any other matter arising in connection with this Agreement, shall not be deemed to be a waiver with respect to any other breach, default or matter.

24) No Third-Party Beneficiaries. This Agreement is intended to benefit only the Parties hereto and shall not confer any right or benefit on any third party, including but not limited to any public entity, corporation, landowner, contractor, or member of the public.

25) Assignment. The provisions of this Agreement shall apply to and bind the successors and assigns of each Party, but no assignment or transfer of this Agreement, or any part thereof or interest therein, by either Party shall be valid unless and until approved by the other Party.

26) Headings. The paragraph headings used in this Agreement are included for convenience only and shall not in any way limit or amplify the terms and provisions hereof, nor shall they enter into the interpretation of this Agreement.

27) Entire Agreement. This Agreement is freely and voluntarily entered into by the Parties after having had the opportunity to consult with their respective attorneys. The Parties, in entering into this Agreement, do not rely on any inducements, promises, or representations made by each other, their representatives, or any other person, other than those inducements, promises, and representations contained in this Agreement. This Agreement represents the entire agreement of the Parties with respect to the subject matter described herein and supersedes any prior agreement or understanding between the Parties regarding the same subject matter.

28) Interpretation. Each Party acknowledges that it received an opportunity to review this Agreement with the advice of legal counsel, and that the rule of construction to the effect that any ambiguities are to be resolved against the drafting party shall not be employed in the interpretation of this Agreement.

29) Dispute Resolution. In the event of a dispute or controversy between the Parties arising out of this Agreement, the respective staff of each Party shall hold an informal meeting or meetings to attempt to resolve the dispute or controversy. If staff is unable to resolve the matter informally, each Party shall designate an executive with the authority necessary to resolve the dispute or controversy. The executives of each Party shall meet as necessary to attempt to resolve the dispute or controversy.

30) Authority. Each Party certifies that the person signing this Agreement on its behalf is authorized to bind such Party to all terms and conditions set forth herein.

Approved as to form:

Jon Salmon, Assistant General Counsel

The rate and volume of water made available for use at CASS will be calculated in two steps:

Step 1: CCWD confirms that the water requested for CASS is available using the following:

- *Water Available for CASS (upto 150 AF) = Flow at Bear Creek measured at Bear Creek Flow Meter minus CCWD Bear Creek Diversions, and minus S000133 Pre-14 Diversion.*

Step 2: EBMUD to check that the water available for CASS is conveyed to the Point of Delivery. If the flow measured at EBMUD's Middle Fork flow gage (USGS Gage 11317000) is equal to or greater than the water requested or available for CASS in Step 1, then the water will be deemed delivered at the Point of Delivery.

The volume of water beneficially used at CASS is calculated according to the formula shown below, which formula is described as follows: The quantity discharged from the Camanche Water Treatment Plant to the CASS distribution system as measured at Point M2, minus the quantity discharged from Camanche Water Treatment Plant to the Camanche Area North Shore distribution system as measured at Point M3, minus the total quantity of Camanche Water Treatment Plant process water (backwash, analyzer flow, etc.) as measured at Point M4, plus the quantity of Camanche Water Treatment Plant process water measured at Point M4 prorated to the metered treated water based on the volume of treated water delivered to the CASS system.

$$\text{CASS Beneficial Use} = M2 - M3 - M4 + M4 \times \left(\frac{M2 - M3 - M4}{(M2 - M3 - M4) + M3} \right)$$

RESOLUTION NO. 2026-

**A RESOLUTION OF THE BOARD OF DIRECTORS
OF THE CALAVERAS COUNTY WATER DISTRICT**

**APPROVING THE WHOLESALE WATER PURCHASE AGREEMENT
BETWEEN CALAVERAS COUNTY WATER DISTRICT
AND EAST BAY MUNICIPAL UTILITY DISTRICT**

WHEREAS, the CALAVERAS COUNTY WATER DISTRICT (CCWD) possesses water rights on Bear Creek, a tributary to the Middle Fork Mokelumne River, including a pre-1914 appropriative water right claimed under Statement of Water Diversion and Use 28800, which supplies water to CCWD's West Point service area; and

WHEREAS, CCWD and East Bay Municipal Utility District (EBMUD) have negotiated a Wholesale Water Purchase Agreement (Agreement) that authorizes CCWD to make available up to 150 acre-feet per year of water pursuant to CCWD's Bear Creek Pre-1914 Right for beneficial use within EBMUD's Camanche Area South Shore facilities; and

WHEREAS, the Agreement establishes the terms and conditions under which EBMUD may request, receive, measure, and pay for water made available by CCWD, while preserving CCWD's ownership and administration of its Bear Creek Pre-1914 Right; and

WHEREAS, the Agreement provides for EBMUD to compensate CCWD for water supplied under the Agreement at a rate equal to the Adjusted Calaveras Public Utility District wholesale water purchase rate plus a twenty percent markup; and

WHEREAS, the Agreement further provides for collaboration between CCWD and EBMUD through preparation of a technical memorandum evaluating regional water supply opportunities and infrastructure alternatives serving the Camanche South Shore area, including Wallace, Burson, and adjacent communities; and

WHEREAS, the Board of Directors has reviewed the Agreement and finds that approval of the Agreement is in the best interests of CCWD and its ratepayers by providing a beneficial use of available water supplies, establishing an additional revenue source to support water rights administration and operations, and fostering regional cooperation on future water supply planning; and

WHEREAS, the General Manager has recommended approval of the Wholesale Water Purchase Agreement between CCWD and EBMUD.

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors of the CALAVERAS COUNTY WATER DISTRICT hereby approves the Wholesale Water Purchase Agreement between CCWD and EBMUD, attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED that the General Manager is authorized and directed to execute the Agreement on behalf of the CCWD, together with any non-substantive revisions or modifications approved by General Counsel consistent with the intent of the Agreement.

AGENDA ITEM 4D

Agenda Item

DATE: August 12, 2026

TO: Michael Minkler, General Manager

FROM: Kevin Williams, District Engineer

SUBJECT: Discussion/Action regarding Awarding Construction Contract – Lake Tulloch Intertie Project (Cip No. 11104)

RECOMMENDED ACTION

Motion: _____/_____ adopting Resolution No. 2026 - ____ Awarding the Lake Tulloch Intertie Project to Ford Construction Company, Inc. in the amount of \$5,372,170, Approving the addition of zinc-coated ductile iron pipe for \$127,029.21, Authorizing a 10% construction contingency, and Authorizing the General Manager to execute the contract. Funding is provided through Private Placement Water Loan #2.

BACKGROUND

The Lake Tulloch Intertie Project consists of the construction of approximately 12,700 linear feet of 12-inch Class 350 ductile iron transmission main, a pressure reducing valve station, air/vacuum release valves, fire hydrants, gate valves, and associated appurtenances that will connect the C Tanks to the B4 Pressure Zone east of Lake Tulloch. The project will improve system reliability, operational flexibility, and resiliency within the Copperopolis service area.

The project will eliminate reliance on the existing underwater Lake Tulloch pipeline crossing and provide a transmission route to the B4 Pressure Zone. Upon completion, a failure of the underwater crossing would not impact water service to customers in the service area. The project also includes microsurfacing both lanes of O'Byrnes Ferry Road as required by Calaveras County Encroachment Permit requirements, resulting in a high-quality completed roadway surface

DISCUSSION

The District publicly advertised the project and received fourteen (14) bids from highly qualified contractors. Staff was encouraged by the level of interest received, as several contractors that do not typically pursue projects for smaller agencies such as CCWD submitted bids. The strong contractor participation resulted in highly competitive pricing and bids substantially below the Engineer's Estimate of \$7.8 million.

Following review of the bids and qualifications, Ford Construction Company, Inc. was determined to be the lowest responsive and responsible bidder with a bid of \$5,372,170. The top five responsive bidders were closely grouped in price, demonstrating a competitive marketplace and providing confidence that the bid pricing represents a fair and reasonable cost for the work.

The District received a bidder question the day before bid opening regarding zinc-coated ductile iron pipe. Due to the timing of the inquiry, an addendum could not be issued prior to bid opening. Staff recommends adding zinc-coated ductile iron pipe for corrosion protection at an additional cost of \$127,029.21.

Rank	Bidder	Bid Amount
1	Ford Construction Company, Inc.	\$5,372,170
2	Mozingo Construction	\$5,639,280
3	Garney Pacific Inc.	\$5,680,753
4	T&S Construction	\$5,699,808
5	Mountain Cascade, Inc.	\$6,014,310

FINANCIAL CONSIDERATIONS

The Lake Tulloch Intertie Project is funded through Private Placement Loan #2. The recommended contract award amount is \$5,372,170 plus \$127,029.21 for zinc-coated ductile iron pipe, for a total construction contract amount of \$5,499,199.21. Staff also recommends a construction contingency of approximately 10 percent (\$549,920), bringing the total authorized construction budget to approximately \$6.05 million. This amount remains approximately \$1.75 million below the Engineer's Estimate of \$7.8 million.

STRATEGIC PLAN ALIGNMENT

This project supports the District's Strategic Plan by:

- Maintaining and improving critical water infrastructure.
- Reducing risk associated with the existing underwater Lake Tulloch pipeline crossing.
- Advancing long-term asset management objectives.
- Demonstrating fiscal responsibility through competitive bidding and delivery of a major capital project below the Engineer's Estimate.

RESOLUTION NO. 2026-

**A RESOLUTION OF THE BOARD OF DIRECTORS OF
THE CALAVERAS COUNTY WATER DISTRICT
AWARDING A CONSTRUCTION CONTRACT FOR THE LAKE TULLOCH INTERTIE
PROJECT (CIP NO. 11104) TO FORD CONSTRUCTION COMPANY, INC., AND
AUTHORIZING EXECUTION OF CONTRACT DOCUMENTS**

WHEREAS, the CALAVERAS COUNTY WATER DISTRICT ("District") has identified the Lake Tulloch Intertie Project (CIP No. 11104) as a critical capital improvement project to improve water system reliability, operational flexibility, and resiliency within the Copperopolis service area; and

WHEREAS, the project consists of the construction of approximately 12,700 linear feet of 12-inch Class 350 ductile iron transmission main, a pressure reducing valve station, air/vacuum release valves, fire hydrants, gate valves, and associated appurtenances connecting the C Tanks to the B4 Pressure Zone east of Lake Tulloch; and

WHEREAS, the project will eliminate reliance on the existing underwater Lake Tulloch pipeline crossing and provide an alternate transmission route to the B4 Pressure Zone, ensuring that a failure of the underwater crossing would not interrupt customer water service; and

WHEREAS, the District publicly advertised the project and received fourteen (14) bids from contractors; and

WHEREAS, following review of all bids and bidder qualifications, Ford Construction Company, Inc. was determined to be the lowest responsive and responsible bidder with a bid amount of Five Million Three Hundred Seventy-Two Thousand One Hundred Seventy Dollars (\$5,372,170); and

WHEREAS, staff recommends adding zinc-coated ductile iron pipe for corrosion protection at an additional cost of One Hundred Twenty-Seven Thousand Twenty-Nine Dollars and Twenty-One Cents (\$127,029.21); and

WHEREAS, staff further recommend establishing a construction contingency in the amount of approximately ten percent (10%), or Five Hundred Forty-Nine Thousand Nine Hundred Twenty Dollars (\$549,920), to address unforeseen conditions and necessary construction changes; and

WHEREAS, funding for the project is available through Private Placement Water Loan #2; and

WHEREAS, the Board of Directors finds that awarding the contract is in the best interest of the District and its customers.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Directors of the Calaveras County Water District hereby:

1. Awards the construction contract for the Lake Tulloch Intertie Project (CIP No. 11104) to Ford Construction Company, Inc. in the amount of \$5,372,170.
2. Approves the addition of zinc-coated ductile iron pipe for corrosion protection in the amount of \$127,029.21.
3. Authorizes a construction contingency in the amount of approximately \$549,920.
4. Authorizes the General Manager to execute the construction contract and all related project documents on behalf of the District.
5. Finds that sufficient funding has been identified through Private Placement Water Loan #2 to complete the project.

BID FORM**

TABLE OF ARTICLES

Article 1 - Bid Recipient
Article 2 - Bidder's Acknowledgments
Article 3 - Bidder's Representations
Article 4 - Bidder's Certification
Article 5 - Basis of Bid
Article 6 - Time of Completion
Article 7 - Attachments to Bid
Article 8 - Defined Terms
Article 9 - Bid Submittal
Bid Schedule
Descriptions of Bid Items

ARTICLE 1- BID RECIPIENT

- 1.01 This Bid is submitted to: **Calaveras County Water District at the main office located at 120 Toma Court, San Andreas, California 95249, no later than 2pm local time, July 9th, 2026.**
- 1.02 The undersigned Bidder proposes and agrees, if this Bid is accepted, to enter into an Agreement with Owner in the form included in the Bidding Documents to perform all Work as specified or indicated in the Bidding Documents for the prices and within the times indicated in this Bid and in accordance with the other terms and conditions of the Bidding Documents.

ARTICLE 2- BIDDER'S ACKNOWLEDGEMENTS

- 2.01 Bidder accepts all of the terms and conditions of the Instructions to Bidders, including without limitation those dealing with the disposition of Bid security. This Bid will remain subject to acceptance for 90 days after the Bid opening, or for such longer period of time that Bidder may agree to in writing upon request of Owner.

ARTICLE 3- BIDDER'S REPRESENTATIONS

- 3.01 In submitting this Bid, Bidder represents that:
- A. Bidder has examined and carefully studied the Bidding Documents, the other related data identified in the Bidding Documents, and the following Addenda, receipt of which is hereby acknowledged.

Addendum No.	Addendum Date
<u>1</u>	<u>June 24, 2026</u>
<u>2</u>	<u>July 1, 2026</u>
<u> </u>	<u> </u>
<u> </u>	<u> </u>
<u> </u>	<u> </u>

- B. Bidder has visited the Site and become familiar with and is satisfied as to the general, local and Site conditions that may affect cost, progress, and performance of the Work.
- C. Bidder is familiar with and is satisfied as to all Federal, State and local Laws and Regulations that may affect cost, progress and performance of the Work.

- D. Bidder has carefully studied all: (1) reports of explorations and tests of subsurface conditions at or contiguous to the Site and all drawings of physical conditions in or relating to existing surface or subsurface structures at or contiguous to the Site (except Underground Facilities) which have been identified in SC-4.02, and (2) reports and drawings of Hazardous Environmental Conditions, if any, at the Site that have been identified in SC-4.06 as containing reliable "technical data."
- E. Bidder has considered the information known to Bidder; information commonly known to contractors doing business in the locality of the Site; information and observations obtained from visits to the Site; the Bidding Documents; and the Site-related reports and drawings identified in the Bidding Documents, with respect to the effect of such information, observations, and documents on (1) the cost, progress, and performance of the Work; (2) the means, methods, techniques, sequences, and procedures of construction to be employed by Bidder, including applying the specific means, methods, techniques, sequences, and procedures of construction expressly required by the Bidding Documents; and (3) Bidder's safety precautions and programs.
- F. Based on the information and observations referred to in Paragraph 3.01.E above, Bidder does not consider that any further examinations, explorations, tests, studies, or data are necessary for the determination of this Bid for performance of the Work at the price(s) bid and within the times and in accordance with the other terms and conditions of the Bidding Documents.
- G. Bidder is aware of the general nature of the Work to be performed by Owner and others at the Site that relates to the Work as indicated in the Bidding Documents.
- H. Bidder has given Engineer written notice of all conflicts, errors, ambiguities, or discrepancies that Bidder has discovered in the Bidding Documents, and the written resolution thereof by Engineer is acceptable to Bidder.
- I. The Bidding Documents are generally sufficient to indicate and convey understanding of all terms and conditions for the performance of the Work for which this Bid is submitted.
- J. Bidder will submit written evidence of its authority to do business in the State or other jurisdiction where the Project is located not later than the date of its execution of the Agreement.

ARTICLE 4- BIDDER'S CERTIFICATION

4.01 Bidder further represents that:

- A. This Bid is genuine and not made in the interest of or on behalf of any undisclosed individual or entity and is not submitted in conformity with any agreement or rules of any group, association, organization or corporation;
- B. Bidder has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid;
- C. Bidder has not solicited or induced any individual or entity to refrain from bidding; and
- D. Bidder has not engaged in corrupt, fraudulent, collusive, or coercive practices in competing for the Contract. For the purposes of this Paragraph 4.01.D:
 - 1. "Corrupt practice" means the offering, giving, receiving, or soliciting of anything of value likely to influence the action of a public official in the bidding process.
 - 2. "fraudulent practice" means an intentional misrepresentation of facts made to (a) to influence the bidding process to the detriment of Owner, (b) to establish bid prices at artificial non-competitive levels, or (c) to deprive Owner of the benefits of free and open competition;

3. "collusive practice" means a scheme or arrangement between two or more Bidders, with or without the knowledge of Owner, a purpose of which is to establish bid prices at artificial, non-competitive levels; and
4. "coercive practice" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the bidding process or affect the execution of the Contract.

ARTICLE 5- BASIS OF BID

- 5.01 Bidder will complete the Work in accordance with the Contract Documents for the price(s) provided in the attached bid schedule (at the end of this section).
- 5.02 Unit Prices have been computed in accordance with Paragraph 11.03.B of the General Conditions
- 5.03 Bidder acknowledges that estimated quantities are not guaranteed, and are solely for the purpose of comparison of Bids, and final payment for all Unit Price Bid items will be based on actual quantities, determined as provided in the Contract Documents.
- 5.04 Bid Prices are for work that has been furnished and installed by the Contractor and is fully completed. The bid items as described and provided are for bidding and payment purposes and do not in any way limit the Contractor's responsibility to perform all work that may be reasonably inferred from the plans, specifications and other bid documents to produce the intended result.
- 5.05 All specified cash allowances are included in the price(s) set forth above and have been computed in accordance with Paragraph 11.02 of the General Conditions.
- 5.06 If "additive" or "deductive" Bid Items are included in the Bid- clearly identify the method for applying the alternates and the basis for award of the contract.

ARTICLE 6- TIME OF COMPLETION

- 6.01 Bidder agrees that the Work will be substantially complete and will be completed and ready for final payment in accordance with Paragraph 14.07 of the General Conditions on or before the dates or within the number of calendar days indicated in the Agreement.
- 6.02 Bidder accepts the provisions of the Agreement as to liquidated damages.

ARTICLE 7- ATTACHMENTS TO THIS BID

- 7.01 The following documents are attached to and made a condition of this Bid:
 - A. Non-Collusion Affidavit (Section 00420);
 - B. Required Bid security in the form of a Bid Bond (Section 00430) or Certified Check;
 - C. List of Subcontractors (Section 00470);

ARTICLE 8- DEFINED TERMS

- 8.01 The terms used in this Bid with initial capital letters have the meanings stated in the Instructions to Bidders (Section 00200), General Conditions (Section 00700 and Supplementary Conditions (Section 00800).

ARTICLE 9- BID SUBMITTAL

9.01 This Bid is submitted by: Ford Construction Company, Inc.

DESCRIPTIONS OF BID ITEMS

Note: Bid items listed herein for bidding and payment purposes do not limit Contractor's responsibility to perform all work required under this contract, on drawings, in specifications, or reasonably inferred or interpreted to be necessary to complete the work. All bid items will have 5% retention in the progress payment held for final payment.

BID ITEM NO. 1 – MOBILIZATION / DEMOBILIZATION

1. The work under this bid item shall include all contract administration, project mobilization, site development activities and demobilization as required to conduct and complete the Work, as identified in the Contract Documents. The total amount shall not exceed five percent (5%) of Total Base Bid Price as provided in the Bid Schedule. Item shall include, but not be limited to, the following:
 - a. Insurance premiums, bonds, permitting fees, security fencing, utilities, potholing and other facilities at the jobsite, Contractor's overhead, and costs inclusive of administering the Contract, management and quality control procedures, and coordination as required to construct and complete the Project.
 - b. Supply, transportation, and/or movement of personnel, equipment, supplies and incidentals to the work site. Equipment and major materials listed in Contractor's proposal shall be staged on site in the types and quantities shown. Additional shipments of material or transportation of equipment, if required, shall be approved in writing by District in advance.
 - c. Cleaning of equipment prior to mobilizing to the jobsite.
 - d. Identification and protection of existing facilities/utilities.
 - e. Site preparation of construction zone, vehicle/visitor parking, staging, laydown, and stockpile areas.
 - f. All project demobilization, site cleanup, and removal of personnel, equipment, materials, supplies, temporary facilities, site delineators, and construction waste from the jobsite to satisfy the requirements of 01 70 00 - Execution and Closeout Requirements and other applicable elements of the Contract Documents.
2. Work will be paid for on a lump sum basis. Contractor may apply for payment for up to one-third of the total lump sum amount with the Contractor's first application for payment and after completion of the Contractor's pre-construction obligations. Contractor may apply for payment for the remaining lump sum amount on a project percent complete basis.

BID ITEM NO. 2 – WORKER PROTECTION AND SAFETY/SHORING

1. The lump sum amount shall include detailed plan for worker safety and maintaining safety during construction complying with Labor Code Sections 6700-6708, all applicable safety orders and permits and protective equipment necessary for the protection and safety of all workers, other persons, equipment and facilities during the construction period as specified in the Contract Documents.
2. Contractor may apply for payment for this Bid Item on a percent complete basis as the items covered in Worker Protection and Safety/Shoring are being completed.

BID ITEM NO. 3 – IMPLEMENTATION OF STORM WATER POLLUTION PREVENTION PLAN

1. The lump sum amount shall include a Contractor provided Storm Water Pollution Prevention Plan (SWPPP) including installation of Best Management Practices (BMP's) for erosion control, spill control, and monitoring as required by the law.
2. Contractor may apply for payment for this Bid Item on a percent complete basis as the items covered in Implementation of SWPPP are being completed.

BID ITEM NO. 4 – TRAFFIC CONTROL

1. The work under this bid item shall include all temporary traffic control measures, devices, flaggers, and any other costs associated with the traffic control plan covered in the Drawings and Contract Specifications.
2. Work will be paid for on a percent complete basis as items performed are being completed.

BID ITEM NO. 5 – ROADWAY PAVEMENT REPLACEMENT (TRENCH)

1. The work under this bid item shall include all pavement restoration including compaction, material processing and importing, aggregate base and crushed rock bases, asphaltic concrete paving, and restoration of asphalt concrete curbs associated with replacing pavement in the roadway per Calaveras County Specifications. For bidding purposes, the pavement section shall be assumed to be 6 inches thick.
2. This item shall be paid in accordance with the actual tonnage that is delivered and installed. The unit price shall be full compensation per ton installed for the preparation and installation of these materials, and for all labor, equipment, tools, and incidentals to complete this item.

BID ITEM NO.6 – MICROSURFACING (FULL ROAD WIDTH)

1. The work under this bid item shall include the microsurfacing for the full width of the road associated with replacing pavement in the roadway per Calaveras County Specifications.
2. Work will be paid for on a square foot basis. The unit price shall be full compensation per square footage complete for the preparation and implementation or submittal of these materials and requirements, and for furnishing and installing all labor, equipment, materials, tools, and incidentals to complete this item.

BID ITEM NO.7 – PAVEMENT STRIPING AND MARKINGS

1. The work under this bid item shall include all pavement striping and markings, including removal of existing striping and markings, layout, and installation of new striping and pavement markings in accordance with the plans and Calaveras County Specifications.
2. This item shall be paid for on a lump sum basis. The lump sum price shall be full compensation for all labor, materials, equipment, tools, and incidentals required to complete this item.

BID ITEM NO.8 – 12" CLASS 350 DUCTILE IRON PIPE (INCLUDES EXCAVATION & BACKFILL)

1. The work under this bid item shall include furnishing and installing 12,700 LF of 12" Class 350 Ductile Iron Pipe including all restrained 12" fittings, joints, taps, tracer wire, excavation, trenching, backfill and compaction and ties to the existing system as shown and specified in the Contract Documents.
2. Work will be paid for on a linear foot basis. The unit price shall be full compensation per linear footage complete for the preparation and implementation or submittal of these materials and requirements, and for furnishing and installing all labor, equipment, materials, tools, and incidentals to complete this item.

BID ITEM NO.9 – 12" GATE VALVES

1. The work under this bid item shall include the furnishing and installation of 12" gate valves as shown on the Contract Documents.
2. Work will be paid for by each gate valve installed.

BID ITEM NO.10 – 10" GATE VALVES

1. The work under this bid item shall include the furnishing and installation of 10" gate valves as shown on the Contract Documents.
2. Work will be paid for by each gate valve installed.

BID ITEM NO.11 – FIRE HYDRANTS

1. The work under this bid item shall include furnishing and installation of fire hydrants including all valves, taps, joints, fittings, excavation, trenching, backfill and compaction as shown on the Contract Documents. This bid item shall also include the hauling and disposal of removed items.
2. Work will be paid for by each fire hydrant installed.

BID ITEM NO.12 – AIR/VAC VALVES

1. The work under this bid item shall include furnishing and installation of combination air and vacuum valves including all enclosures, valves, taps, joints, fittings, slurry if applicable, excavation, trenching, backfill and compaction as shown on the Contract Documents.
2. Work will be paid for by each combination air and vacuum valve installed.

BID ITEM NO.13 – PRESSURE REDUCING STATION

1. The work under this bid item shall include the furnishing and installation of a preassembled pressure-reducing station by a single manufacturer specializing in engineered piping systems, including the precast vault and hatch and all associated piping, appurtenances, and accessories, as shown on the Contract Documents, including but not limited to all spool pieces, fittings, pressure reducing valves, isolation valves, pressure gauges, flow meters, flow controls, Y strainer, and pipe supports.
2. Work will be paid for on a lump sum basis. The lump sum price shall be full compensation per percent complete for the preparation and implementation of these materials and requirements, and for furnishing and installing all labor, equipment, materials, tools, and incidentals to complete this item.

**SECTION 00 04 20
NON-COLLUSION AFFIDAVIT**

NON-COLLUSION DECLARATION TO BE EXECUTED
BY
BIDDER AND SUBMITTED WITH BID
(Public Contract Code Section 7106)

State of California
County of Calaveras

The undersigned declares:

I am the President of Ford Construction Company, Inc., the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or to refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed:

Title

Note: Above addresses are to be used for giving any required notice. Provide execution by any additional parties, such as joint venturers, if necessary.

1. Bidder and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to pay to Owner upon default of Bidder the penal sum set forth on the face of this Bond. Payment of the penal sum is the extent of Bidder's and Surety's liability. Recovery of such penal sum under the terms of this Bond shall be Owner's sole and exclusive remedy upon default of Bidder.
2. Default of Bidder shall occur upon the failure of Bidder to deliver within the time required by the Bidding Documents (or any extension thereof agreed to in writing by Owner) the executed Agreement required by the Bidding Documents and any performance and payment bonds required by the Bidding Documents.
3. This obligation shall be null and void if:
 - 3.1 Owner accepts Bidder's Bid and Bidder delivers within the time required by the Bidding Documents (or any extension thereof agreed to in writing by Owner) the executed Agreement required by the Bidding Documents and any performance and payment bonds required by the Bidding Documents, or
 - 3.2 All Bids are rejected by Owner, or
 - 3.3 Owner fails to issue a Notice of Award to Bidder within the time specified in the Bidding Documents (or any extension thereof agreed to in writing by Bidder and, if applicable, consented to by Surety when required by Paragraph 5 hereof).
4. Payment under this Bond will be due and payable upon default of Bidder and within 30 calendar days after receipt by Bidder and Surety of written notice of default from Owner, which notice will be given with reasonable promptness, identifying this Bond and the Project and including a statement of the amount due.
5. Surety waives notice of any and all defenses based on or arising out of any time extension to issue Notice of Award agreed to in writing by Owner and Bidder, provided that the total time for issuing Notice of Award including extensions shall not in the aggregate exceed 120 days from Bid due date without Surety's written consent.
6. No suit or action shall be commenced under this Bond prior to 30 calendar days after the notice of default required in Paragraph 4 above is received by Bidder and Surety and in no case later than one year after Bid due date.
7. Any suit or action under this Bond shall be commenced only in a court of competent jurisdiction located in the state in which the Project is located.
8. Notices required hereunder shall be in writing and sent to Bidder and Surety at their respective addresses shown on the face of this Bond. Such notices may be sent by personal delivery, commercial courier, or by United States Registered or Certified Mail, return receipt requested, postage pre-paid, and shall be deemed to be effective upon receipt by the party concerned.
9. Surety shall cause to be attached to this Bond a current and effective Power of Attorney evidencing the authority of the officer, agent, or representative who executed this Bond on behalf of Surety to execute, seal, and deliver such Bond and bind the Surety thereby.
10. This Bond is intended to conform to all applicable statutory requirements. Any applicable requirement of any applicable statute that has been omitted from this Bond shall be deemed to be included herein as if set forth at length. If any provision of this Bond conflicts with any applicable statute, then the provision of said statute shall govern and the remainder of this Bond that is not in conflict therewith shall continue in full force and effect.
11. The term "Bid" as used herein includes a Bid, offer, or proposal as applicable.

(ADD ADDITIONAL SHEETS IF NECESSARY)

**Calaveras County Water District
Copper Cove, California
Bidding Documents
Lake Tulloch Intertie Project
ADDENDUM NO. 1
Issued June 24, 2026**

The Drawings and Project Manual including Specifications are modified as follows. Addendum No. 1 forms a part of the Contract Documents and modifies the original documents dated May 2026.

This Addendum consists of four (4) pages and three (3) attachments:

- Attachment A: Pre-Bid Meeting Sign-in Sheet
- Attachment B: Updated plan sheets
- Attachment C: Updated Bid Form

Bidder's Note: Bidder shall acknowledge receipt and examination of this addendum on the Bid form and attach a signed copy to the Bid, both as required by the Sealed Proposal.

Contract Documents – Specifications Change:

- 1) Revise Section 00 02 00: Instructions to Bidders, as follows:
7.01 All questions about the meaning or intent of the Bidding Documents are to be submitted to Engineer in writing. Interpretations or clarifications considered necessary by Engineer in response to such questions will be issued by Addenda mailed or delivered to all parties recorded by Engineer as having received the Bidding Documents. Questions received ~~less than five days prior to the date for opening of Bids~~ **after June 26, 2026 at 2pm** may not be answered. Only questions answered by Addenda will be binding. Oral and other interpretations or clarifications will be without legal effect.
- 2) Revise Section 01 33 00: Submittal Procedures, as follows:

A. The project team will use and maintain a web-based database as the primary means of communication related to the Project's correspondence, submittals, requests for information (RFIs), advisory notices, and non-compliance issues. Correspondence from the Contractor shall be sent to the Construction Manager via the District's web-based database.
1. The Contractor shall use CIPO Cloud to submit and process all RFIs, submittals, change requests, schedules, and progress payment applications electronically.

- 3) Replace Section 00 04 10: Bid Form with Bid Form provided in Attachment C

Responses to Bidder Questions:

Question #1: CCWD Trench Section Detail G05 as shown on C18 (Sheet 20), shows the minimum cover to be 36" below subgrade. Typical profile drawings throughout the plans indicate 36" Minimum Cover below existing grade, in most cases, this is to be below existing pavement. Please clarify which condition governs:

- 36 inches below subgrade, or
- 36 inches below existing grade (pavement)

Response #1: The installed pipe shall be 36-inches below finished grade per the profiles on project plan sheets which govern per Note 8 on the standard detail.

Question #2: Is there an engineer estimate for the total cost of the project?

Response #2: The engineer's estimate is \$7,894,000.

Question #3: Is there a groundwater and rock clause in the specifications?

Response #3: Hard rock and shallow groundwater is expected to be encountered and should be considered in the bid pricing. For District projects, no extra payment will be given for rock excavation, regardless of the method used. It is assumed that rock will be encountered in the Foothills, and it is the responsibility of the Contractor to include those costs appropriately.

Question #4: Do the tonnage quantities on the bid schedule reflect pavement replacement in the sliver between the proposed trench and the edge of pavement?

Response #4: The tonnage quantities for pavement replacement within the sliver area between the proposed trench and the edge of pavement have been revised in the trench paving bid item. Please see updated Bid Form in Attachment C.

Question #5: Has potholing already been completed? Is potholing included in the bid schedule?

Response #5: Potholing was performed during design to identify potential utility conflicts. The potholing results can be found on Sheet G02 of the project plans. Please note, the Contractor is required to pothole all tie-in locations. Any additional potholing required will be paid under Bid Item No.1 – Mobilization/Demobilization.

Question #6: Is AC curb repair included in the tonnage shown on the bid schedule?

Response #6: The Contractor shall be responsible for replacing any AC curb damaged during construction. The applicable tonnage quantities are included in the trench paving bid item. Please see updated Bid Form in Attachment C.

Question #7: Will the full road width need to be microsurfaced?

Response #7: Microsurfacing will be required for the full width of the road within the County ROW. Conner Estates Drive and Sanguinetti Drive are outside of the County ROW and will only require trench paving.

Question #8: Will thermal plastic striping be required?

Response #8: Thermal plastic striping will be required for all pavement markings. This has been added as a separate bid item for clarity. Please see updated Bid Form in Attachment C.

Question #9: What are the working hours?

Response #9: Working hours for this Project shall be from 7:00 a.m. to 6:00 p.m. The Contractor shall not perform Work on holidays recognized by Calaveras County. Traffic control restrictions may also apply on the day before and/or the day after holiday weekends. Changeable message signs shall be provided as part of the traffic control requirements as per Note 8 on Sheet T01 of the project plans.

Question #10: What is the performance bond amount?

Response #10: Per Specification Section 01 14 00, 1.03, B, "As part of the process for obtaining the final Calaveras County Encroachment Permit, The Contractor is responsible for procuring the Calaveras County Performance Bond as described and required by the Calaveras County Encroachment Permit." The amount of the bond is based off a completed Restoration Estimate with the County which is estimated to total \$5,000,000.

Question #11: Where are the staging/spoils sites?

Response #11: Per Sheet C01 of the project plans, a staging area is provided on the Copper Cover Water Treatment Plant (WTP) site. The Contractor is responsible for any additional staging area(s)/spoils sites. Access and material deliveries to the WTP staging area shall be coordinated with District staff.

Question #12: Will the ductile iron pipe require cathodic protection?

Response #12: Cathodic protection shall be provided by V-Bio Enhanced Polyethylene Encasement; no supplemental cathodic protection system is required.

Question #13: Is tracer wire required if it's ductile iron pipe?

Response #13: Yes, tracer wire is required per Detail 3, Sheet C18.

Question #14: On plan sheet C21 (see attached) and in the bid item descriptions there is a reference to a flow meter required at the PRV station. However, there is nothing shown on the pipe schematic or the items description table on the right-hand side of this sheet showing this meter. Please clarify.

Response #14: Provide and install two (2) XP2F-CV35 Cla-Val battery-powered flow meters: one on the main PRV and one on the bypass PRV, in accordance with Specification Section 33 14 19.02, 2.01.F.1.

Question #15: Just confirming that this opportunity is indeed a Bid and not an "RFP" (Request for Proposal), as advertised for this solicitation. If this solicitation is requesting for proposals, can the District please upload a copy of the RFP for consultants to review?

Response #15: This solicitation is for a Bid, not an RFP. The deadline for questions is 6/26 at 2pm. Bidders can register on Public Purchase if they want to be added to the Plan Holders list.

Question #16: Can storm drains be cut and coupled back together where water main is below the culvert?

Response #16: Storm drains shall not be cut and coupled. The Contractor shall protect all storm drain facilities in place during construction. Where the proposed water pipe crosses beneath an existing storm drain pipe or culvert, slurry backfill shall be placed between the proposed water pipe and the existing facility.

Question #17: The Project Specifications require all fittings and joints be restrained, will concrete kickers also be required?

Response #17: Yes. Thrust blocks are required at existing pipeline to new pipeline tie-in connections.

Question #18: What are the trench backfill requirements?

Response #18: All backfill must be Class 2 Aggregate Base, compacted to 95% per Calaveras County Trench Restoration Detail.

Question #19: Where are pavement striping and markings paid for?

Response #19: Pavement striping and markings have been separated from Bid Item No. 5 – Roadway Pavement Replacement (Trench), and inserted into the Bid Schedule as Bid Item No. 7 – Pavement Striping and Markings. Please see updated Bid Form in Attachment C.

-END OF ADDENDUM NO. 1

**Calaveras County Water District
Copper Cove, California
Bidding Documents
Lake Tulloch Intertie Project
ADDENDUM NO. 2
Issued July 1, 2026
Bid Date: July 9, 2026 at 2pm**

The Drawings and Project Manual including Specifications are modified as follows. Addendum No. 2 forms a part of the Contract Documents and modifies the original documents dated May 2026.

This Addendum consists of three (3) pages and two (2) attachments:

- Attachment A: Update Plan Sheets
- Attachment B: Updated Bid Form

Bidder's Note: Bidder shall acknowledge receipt and examination of this addendum on the Bid form and attach a signed copy to the Bid, both as required by the Sealed Proposal.

Contract Documents – Specifications Change:

- 1) Replace Section 00 04 10: Bid Form with Bid Form provided in Attachment B
- 2) Revise Section 33 14 19: Valves and Hydrants, as follows:

“B. Materials:

1. Body: Ductile Iron.
2. Cover: Ductile Iron.
3. Seat: Buna N.
4. Float Lever: ~~Bronze~~, **Stainless Steel**.
5. Float: Stainless Steel.
6. Hardware: Stainless Steel.”

Responses to Bidder Questions:

Question #1: Please confirm the number of Air Release Valves (ARV total qty listed is 6) per Bid Item 11, as we have counted a total of 8 at the following locations:

**STA 100+05.61
STA 112+06.29
STA 125+69.75
STA 156+55.97
STA 170+19.22
STA 204+37.65**

STA 401+43.87

STA 407+64.31

Response #1: The correct quantity of Air Release Valves is eight (8). An updated Bid Form reflecting this quantity is included as Attachment B to this addendum.

Question #2: Most of the listed Air and Vacuum Relief Valve Manufacturers use 316SS as the standard material for a float lever. Please add this to the standard materials. It is superior to bronze.

Response #2: Stainless steel is acceptable as a standard material for the Air Release Valve float lever arm. Specification Section 33 14 10, Paragraph 2.03.B.4 has been revised accordingly.

Question #3: Specification Section 33 14 19 Division 2.03 - A.4 states "1 and 2 inch inlet" Detail drawing 6 - C18 shows a 3" flanged Air/Vac. Please provide clarification on the size of the inlet that is required for this system

Response #3: Air Release Valves installed under this project shall be 2-inch. The standard detail shown on Sheet C18 currently identifies Item No. 5 as a 4-inch by 3-inch reducing 90-degree elbow. Item No. 5 shall be revised to a 4-inch by 2-inch reducing 90-degree elbow to accommodate the required 2-inch Air Release Valve. Detail 6 on Sheet C18 has been revised to include a clarifying note, as shown in Attachment A.

Question #4: Please provide clarification on the required thickness of the asphalt for the trench restoration and T-Cut sections, including any required asphalt base for the T-Cut areas.

Response #4: Trench restoration shall be performed in accordance with the Calaveras County Standard Trench Restoration Detail. Per the standard detail, the street structural section shall be restored to match existing field conditions. The County has further directed that the replacement asphalt concrete (AC) section shall be a minimum of 1 inch thicker than the existing asphalt section. Because existing asphalt thickness may vary throughout the project limits, an assumed AC thickness of 6 inches was used to calculate the quantity for Bid Item No. 5, Roadway Pavement Replacement (Trench) to be conservative.

Hwy 26 Amador County	Caltrans District 10 Colin Doran / 209-754-1017	\$1,200,000	Repair down slope washed out by failing culvert. Remove and replace CMP culvert with RCP pipe.	2019

AGENDA ITEM 4E

Agenda Item

DATE: June 10, 2026

TO: Michael Minkler, General Manager

FROM: Kevin Williams, District Engineer

SUBJECT: Discussion/Action regarding Adoption of Service Line Installation Fee Schedule

RECOMMENDED ACTION

Motion: _____ / _____ adopting Resolution No. 2026 - ____ Approving the revised Service Line Installation Fee Schedule, establishing a standardized construction fee for domestic water service line installations.

BACKGROUND

Currently, new service line installation costs are developed on a case-by-case basis, requiring staff to prepare individual cost estimates for each request. This process can be time-consuming and results in variability.

Staff reviewed recent construction projects and coordinated with Construction and Distribution personnel to develop a simplified and uniform fee structure based on typical installation conditions and recent construction experience.

PROPOSED FEE SCHEDULE

The proposed fee schedule consists of a base installation cost with pavement restoration evaluated separately:

Basic Service Water Service Line Installation (No paving): \$5,000

Pavement Restoration (if applicable):

CCWD staff will determine the required pavement restoration at the time of quotation based on location of the main within the roadway. Paving cost includes:

- **Trench restoration (Single Lane): \$920**
(defined as any paving patch within the lane closest to the service connection, up to 40 Square Feet of pavement included)

- **Trench restoration (Two lanes): \$1,340**
(defined as paving patch extending beyond the roadway centerline and into the opposite travel lane, up to 80 square feet of new pavement included)

APPLICABILITY

This standard fee applies to service line installations for homes within established subdivisions where:

- The service connection is located within roadway frontage; and
- The existing water main is located within the adjoining roadway.

Service installations that do not meet the above criteria, including extended length service lines or non-standard installation conditions, will be evaluated and priced on a case-by-case basis.

Concrete work such as replacement of concrete driveways, curbs, gutters and sidewalks are not included in the fee and the repair and/or replacement of the concrete is the responsibility of the applicant or property owner.

FINANCIAL CONSIDERATIONS

The base fee of \$5,000 reflects recent construction costs for typical service installations.

Pavement restoration costs will be determined based on roadway impacts and trenching limits.

The service line installation fee and pavement restoration cost will be adjusted annually based on the Consumer Price Index (CPI) and/or Engineering News-Record (ENR) Construction Cost Index to maintain alignment with current construction costs.

STRATEGIC PLAN

This item supports the District's Strategic Plan by improving operational efficiency and ensuring financial sustainability. Specifically, the proposed fee structure:

- **Enhances Organizational Efficiency** by reducing staff time required to prepare individual cost estimates and streamlining the service application process
- **Promotes Fiscal Responsibility** by aligning service installation fees with actual construction costs
- **Improves Customer Service** by providing clear, consistent, and predictable fee expectations for applicants

RESOLUTION NO. 2026-

**A RESOLUTION OF THE BOARD OF DIRECTORS OF
THE CALAVERAS COUNTY WATER DISTRICT
ADOPTING A REVISED SERVICE LINE INSTALLATION FEE SCHEDULE**

WHEREAS, the CALAVERAS COUNTY WATER DISTRICT ("District") currently develops service line installation costs on a case-by-case basis; and

WHEREAS, staff reviewed recent construction costs and developed a standardized fee schedule based on typical installation conditions and recent construction experience; and

WHEREAS, the Engineering Committee reviewed the proposed fee schedule and recommended separating pavement restoration costs from the base service installation fee to more accurately reflect varying roadway restoration requirements; and

WHEREAS, adoption of a standardized fee schedule will improve efficiency, provide consistent cost recovery, and give customers predictable installation costs.

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors of the Calaveras County Water District hereby adopts the following Service Line Installation Fee Schedule effective August 12, 2026:

Description	Fee
Basic Water Service Line Installation (No Paving)	\$5,000.00
Asphalt Trench Restoration – Single Lane	\$920.00
Asphalt Trench Restoration – Two Lanes	\$1,340.00

BE IT FURTHER RESOLVED that:

1. The standard fee shall apply to residential service installations within established subdivisions where the service connection is located within roadway frontage and the existing water main is located within the adjoining roadway.
2. Service installations that do not meet these criteria, including extended service lines or other non-standard conditions, shall be evaluated and priced on a case-by-case basis.
3. District staff shall determine the applicable pavement restoration fee at the time of quotation based on roadway lane impacts and trenching requirements.
4. Concrete replacement, including driveways, curbs, gutters, and sidewalks, is not included in the fee schedule and shall remain the responsibility of the property owner to complete repairs.

5. The General Manager, or designee, is authorized to annually adjust these fees based on the Consumer Price Index (CPI) and/or Engineering News-Record (ENR) Construction Cost Index.

PASSED AND ADOPTED this 12th of August, 2026 by the following vote:

AYES:

NOES:

ABSTAIN:

ABSENT:

CALAVERAS COUNTY WATER DISTRICT

John "Jack" Garamendi, President
Board of Directors

ATTEST:

Clerk of the Board

AGENDA ITEM 6A

Agenda Item

DATE: August 12, 2026
TO: Michael Minkler, General Manager
FROM: Damon Wyckoff, Director of Operations
RE: July 2026 Operations Department Report

RECOMMENDED ACTION:

Report on the Operations Departments Report for Districts 1 through 5.

SUMMARY:

Attached is the monthly Operations Department Report for July 2026. The report will review the operational status and work completed by departmental administration and each of the five Districts. The report will cover the following:

- Administration
- Water treatment plants
- Wastewater treatment plants
- Distribution
- Collections
- Construction
- Electrical
- Mechanical

Staff will be present to report to the Board of Directors and will be available for questions.

FINANCIAL CONSIDERATIONS:

None.

STRATEGIC PLAN INITIATIVES:

OI-01 Ensure our infrastructure is operated and maintained to fully realize its expected life span.

OI-02 Implement preventative, predictive, and corrective maintenance plans to ensure safe and reliable operations.

EO-10 Value the workforce that enables us to deliver on the Strategic Plan goals and objectives and upholds the District's core values.

Attachment: July 2026 Operations Department Reports for Districts 1 through 5

Operations Departments Report

July 1st thru July 31st, 2026

Director of Operations:

1. On-going coordination and management of multiple District Operations projects and work efforts.
2. Multiple ACWA- related work efforts centered around Energy, Clean Fleets, Headwaters, Water Quality, Water Management, Biomass, and Golden Mussels.
3. Site visits to multiple in-construction District projects.
4. Significant work related to coordinating District efforts related to PG&Es undergrounding work efforts on Ebbetts Pass.
5. Presented an update of the District's Risk & Resilience Assessment to the Board of Directors for approval.
6. On-going CARB related work with the CARBs Clean Fleets Infrastructure TRIG, MCWRA, and ACWA.
7. On-going work with the Mobile MMS Team to optimize work orders, service requests, the District Dashboard, and Regulatory Compliance requirements.
8. Conducted a Field Supervisor meeting. Productive.
9. Provided tours of Jenny Lind, La Contenta, and Copper Cove water and wastewater facilities to the District's interns and newer staff. Informative and constructive.
10. On-going work associated with the District's HMGP-funded, Critical Facility Generator Implementation Project.
11. Coordinated work with Tri Dam related to Lake Tulloch water quality as the lake experiences Harmful Algal Bloom (HAB) plumes.
12. On-going work with the Director of the State's Division of Drinking Water to provide input and feedback related to the development of Regulatory guidelines around wildfires and water systems.

Administrative Technician:

1. Maintained Field Calendar
2. Received/Tracked All USA North Line 811 Locates – Handled Associated Calls – 601 Received District Wide
3. Facilitated with Employee Reimbursements
4. Facilitated with Employee Certification – Applications, Exams, Renewals, Trainings, Resources
5. Field Training Course Ordering/Registrations/Travel Arrangements
6. On Call Reminders, Transfers, Logs
7. Electronic Lab Report Filing
8. Organizing and Archiving Operations Department Documents
9. Safety Tailgate Meetings: Create, Track, & Archive
10. Attended Various Meetings – PO Discussion, Supervisor, Finance, Board, etc.
11. Attended ICS 200 Training
12. Process Operations Dept Purchase Orders
13. Assisted with On-Call/PSA Agreements
14. 2026 Backflow Program Work Efforts
15. Miscellaneous Administrative Functions

Plant Operations Manager:

1. Completed the review and acceptance of the monthly and quarterly State Water Reports for all the Districts Water Systems and submitted them to the State.
2. Completed the monthly and quarterly Wastewater Reports for all the Districts Wastewater Systems and submitted them to the State.
3. Working very closely with the operator in West Point to ensure that all system needs are met.
4. Working closely with our operators in Copper Cove water, wastewater, and reclaim plants.
5. Working closely with our operators at La Contenta going through everything and getting the plant back on track.
6. On-going work associated with PO's, invoices, and ordering supplies for different District facilities and projects.
7. Continued work efforts on annual backflow testing.
8. Met with Hydro Science and discussed the water balance for Copper Cove Wastewater Treatment Plant.
9. Attended ICS 100 and 200 training.
10. Ongoing work efforts related to the District's Cross Connection Control Plan and Ordinance with Ms. Burke.
11. Started ongoing work efforts with Valley Water Collaborative for Nitrate control in the Eastern San Joaquin's Management Zone Groundwater Basin.
12. Met with the Sheriff's Department new OES Manager.
13. Meetings with Hydro Science associated on the master plan for Ebbetts Pass water system.
14. Meetings with Verdantas associated on the master plan for Arnold wastewater system.
15. Gathered information on District owned dams to see about eligibility.
16. Attended a lunch and learn with APWA and a movie premier.
17. Working with Mead & Hunt on the EAP for West Point and submitting to OES for review.
18. Working on closing out FY 25/26 POs.
19. Attended the Central Valley Clean Water Association board meeting.
20. Working with Hydro Science on design work for Copper Cove wastewater plant facilities.
21. Also working with Hydro Science on design work for La Contenta wastewater plant.
22. Worked with Verdantas to update the Operations Plan for Sheep Ranch finalize the plan for submitting to the States Division of Drinking Water.
23. Participated in a tour with new office staff.
24. Attended the USA North board meeting.
25. Attended the Western Underground Utilities Association board meeting.
26. Participated in the kickoff meeting for the Upper Moke Watershed Sanitary Survey meeting.
27. Met with CCRCD on potential upcoming projects for restoring wetland areas.

June 2026 Water Production

- a. Copper Cove – 49.514 MG
- b. Ebbetts Pass – 40.688 MG
- c. Jenny Lind – 66.262 MG
- d. Sheep Ranch – 0.629 MG
- e. Wallace – 2.068 MG
- f. West Point – 4.48 MG

Construction and Maintenance Manager:

1. Staff meetings.
2. Board meetings.
3. Jenny Lind A-B Transmission Pipeline project meetings.
4. Cooper C Transmission line and BPS project meeting.
5. Wallace & Sawmill tank replacement project meeting.
6. Ebbett's Pass WMP monthly check-in meeting.
7. Weekly KW Emerson & PG&E undergrounding construction meeting.
8. Weekly meeting with Ops and Customer Service staff.
9. Field visits to A-B service line replacement project.
10. Engineering Committee meeting.

11. Monthly billing team meeting.
12. Gave tours of La Contenta Water and Wastewater systems to new Business Services Manager and summer hire students.
13. Participated in PG&E data portals training.
14. Internal meeting with staff to discuss POs.
15. Lake Tulloch Intertie project bid opening.
16. Meeting with CCWD staff and New OES Director.
17. Meeting with CCWD staff to discuss slurry line items.
18. Meeting with Director of Ops and Construction Supervisor.
19. Gave tours of Copper Water and Wastewater systems to BSM, Director of Admin and summer hire students.
20. Attended CWEA Committee meeting in Lodi.
21. Two days of ICS 200 training at District Office.
22. Site visits to SAF project at Copper Reclaim.
23. Site visits to service line replacement in Baldwin.
24. Assisted JL Distribution with D Tank overflow issues and Usher PRV failure.
25. Sentryx cleanup work. Commissioning meters and closing work orders.
26. Site visit to Sawmill tank for hot tap of new fire hydrant run.
27. Put together list of hydrant replacements.
28. Site visit to A-B project with JL Distribution on Cla-Val rep to start setting up new PRVs for new pressure zones.
29. Coordination with Collections Crew Supervisor for La Contenta I&I study CCTV inspections.
30. Site visits to paving job on Hartvickson from A-B project.
31. Sent right-of-way notifications to County PW for leak repair work efforts.
32. Review and approve employee timecards.
33. Multiple field/site visits.
34. Multiple phone calls to customers to discuss issues/concerns.

Purchasing Agent:

1. Worked on inventory for warehouse.
2. Completed invoicing for purchased material.
3. Met with various reps and received quotes for various items for purchase.
4. Ordered parts, tools, materials, and equipment for all departments.
5. Coordinated service of District Vehicles for Field Staff.
6. Reconciled Credit Cards for Field Staff.
7. Worked on solenoid valves for PRVs and spray fields.
8. Continuous review of budget GLs.
9. Purchased tools and equipment for all departments.
10. Worked on vaults and meters for PRVs related to the AMI project.
11. Worked on purchase request and inventory transfers in MMS
12. Delivered supplies, materials, and parts.
13. Worked on repairing hydrant meters and ordering new ones for the District.
14. Obtained quotes for a mixer for B-Tank Valley Springs.
15. Worked on coordinating maintenance of Flygt pumps with the vendor Shape in district.
16. Worked on FEMA generator replacement project purchases.
17. Worked on getting new safety supplies out to plants and yards.
18. Worked on understanding and addressing the pricing increases from vendors.
19. Worked on inventory stock replenishment order
20. Ordered Wilkerson filters District-wide.
21. Found a valve replacement for the Waterman Valve for the La Contenta WWTP Effluent Pond.
22. Finalized the repairs and return of v759 (2023 Dodge 5500 – damaged during the Feb. Snowmageddon)
23. Continued working on updating the pump book.
24. Worked on securing quotes for generators for the White Pines Barn in Arnold and Connors Main lift station.
25. Worked with JPIA with antenna replacement at Big Trees 1 tank site.
26. Secured quotes and purchased a Six Mile lift station pump.
27. Worked on multiple regulatory reporting requirements for CCWDs fleet vehicles; DOORS, TRUCRS, ACF, AND CTC State reports.

28. Worked on securing quotes for a replacement pump at LS 3 in Copper.
29. Worked with engineering staff on purchase of SAF unit mixer/actuator.
30. Coordinated glass repair for vehicles #785 (2025 Chevy 3500) and 130 ('06 Jeep).
31. Worked on quotes for the Enterprise purchase of a district transit van.
32. Worked on quotes for meter vaults and valves for district PRVs.
33. Worked on getting work orders together for hydrant replacements and repairs.
34. Worked on check valve back up and repair parts for the Jenny Lind WTP.
35. Worked on compiling the surplus list.
36. Ordered backflow and parts for Meadowmont shopping center backflow.

Water Treatment Plants:

Copper Cove Water Treatment Plant:

1. Operations as usual
2. CC WTP is running at 1250 gpm with an Eff .019 F-1 and F-2 at a .020 NTU. UPS in the O3 Room was inspected on the 28th of this month. Power outage on the 23rd caused some havoc at the RWPS and the REC. Other than that, it has been a quiet month down here in Copper.

Hunter's (Ebbett's Pass) Water Treatment Plant:

1. Operations as normal
2. Monthly White Pines Dam Inspection Completed.

Jenny Lind Water Treatment Plant:

1. Operations as usual

Sheep Ranch Water Treatment Plant:

1. Operations were normal for the Month.

Wallace Lake Estates Well System:

1. Operations as usual
2. Well 3 is back online after Moorman's Well Service performed their chlorination / recirculation. The Bacti samples have all been absent and we have one more round of Bacti samples, due in August, to meet state requirements.

West Point Water Treatment Plant:

1. Operations as Usual.

Wastewater Treatment Plants:

Arnold Wastewater Treatment Plant:

1. Operations as usual.
2. Contractor removed forms around newly poured concrete digester.
3. Contractor working on forms for new splitter box - footings and some walls poured.
4. Electricians helped to install new Asco solenoid for spray field #7.
5. Site visit with inspector to go over shutdowns and valving locations / upgrades.
6. Site visit with maintenance to go over downed trees scattered throughout spray fields. Cal Fire was scheduled to help with this but were unfortunately called off to a fire.
7. Low Tank level event- flows diverted to lower Leech Fields overnight in case of mainline break. - valve for spray field stuck-possibly #7.
8. Flushed solenoids field #'s 5,6 &7 -operation and tank level normal.
9. Received sludge pumps and parts for repairs and installation.
10. Quarterly calibrations complete.

11. Received new wall mounted First Aid Kits.

Copper Cove Wastewater Treatment Plant:

1. Normal Operations
2. CC WWTP has been running well the month of July. Ponds 1,2, and 4 were cleaned by the Construction Crew this past week and look great! Pond-4 remains at a constant 2.05 and Pond-6 is at 15.95 as of today.

Copper Cove Wastewater Reclamation Plant:

1. The REC is running well. The new Clarifier Screens are working well.
2. CC REC has been having problems with runtimes. With the water quality from Pond-6 we are experiencing a higher NTU than we are used to. We are also a lot lower in Pond-6 than we usually are this time of year. We have made adjustments in the past few days and are heading the other direction. I will keep Jesse informed on how the REC is progressing.

Country House Wastewater Facility:

1. Operations as usual

Forest Meadows Wastewater Treatment Plant:

1. Operations as usual
2. Received replacement control box electric timers for sand filters.
3. Copper Sulphate received for future dosing.
4. Repaired Belt Filter Tank leaking water supply line.
5. Pond #1 Aerator B fail- pulled and de-ragged- back in operation.
6. Golf Course Power restored-EFF pond spraying started. Big Joe will spray 24/7 till empty.
7. Electricians performed preventative maintenance on UV Power Supply unit.
8. Completed the quarterly calibrations.
9. Received new wall-mounted first aid kits.

Indian Rock Vineyards Wastewater Facility:

1. Operations as usual

La Contenta Wastewater Treatment Plant:

1. Operations as usual

Mountain Retreat / Sequoia Woods Wastewater Facility:

1. Operations as usual
2. Cal fire bucked up downed trees and made piles to burn. Unable to weed-eat due to potential fire hazard.
3. Found wet spot under uprooted tree downed during last winter's storm - potential leach field damage.
4. Site visit with engineering to help familiarize them with the plant.
5. Completed quarterly calibrations
6. Received new wall-mounted first aid kits.

Six Mile Wastewater Collection System:

1. Monthly reads taken and report submitted to the City of Angels Camp

Southworth Wastewater Treatment Plant:

1. Operations as usual

Vallecito / Douglas Flat Wastewater Treatment Plant:

1. Operations as usual
2. EFF Pond at empty level- ready for crews.
3. Biosolids shipped- new dumpster rec'd.
4. CalFire did work on Sprayfields and EFF pond for 2 days. Small fire started in rocks, and all weed eating was halted for the season.
5. Triple C did weed eating on EFF pond for 2 days- mostly complete minus a little saw work.
6. Completed quarterly reports

7. Received new wall mounted First Aid Kits.

West Point Wastewater Treatment Plant:

1. Operations as usual
2. Still waiting for Polymer salesman to come out to test new polymer pump and fire up new auger and debris screen at new building.

Wallace Wastewater Facility:

1. Operations as usual

Distribution:

Copperopolis Distribution System:

SERVICE LINE WORK

1. 455 Lakeview
2. 1885 Quail Hill
3. 815 Sandy Bar
4. 648 Foothill
5. 6270 Ricky
6. 1698 Fox
7. 344 Sunrise
8. 204 Millie

MAIN LINE WORK

1. None during this period

Additional Work

1. 11 Valves Turned
2. Service Requests
3. USA's
4. Flushed 12,000 gallons.
5. We have spent a fair amount of time trying to figure out the infrastructure at the Town Center. We are trying to verify what valves belong to CCWD and what belongs to CV.

Ebbett's Pass Distribution System:

SERVICE LINE WORK

1. 1-inch Poly (corp) – Antler
2. 1-inch Poly – Pine Dr
3. 1-inch Poly - Tamarack
4. 1-inch Poly – Fawn Circle
5. 1-inch Poly – Lakemont
6. 1-inch Poly – Fifth Green
7. 1-inch Poly – Avery Sheep Ranch Road
8. 1-inch Poly – Avery Sheep Ranch Road
9. 1-inch Poly – Oakwood Drive
10. ¾-inch Poly – Fairway Ct.

MAIN LINE WORK

1. 4-inch Double Check – Big Trees Market
2. 6-inch A.C. Main, The Sheep Ranch Tank Line

Additional Work

1. Service Requests - Received 36 Resolved 30 Outstanding 6.
2. Work Orders - Created 9 Resolved 9 Outstanding 0.
3. USA Tickets: - Received 445 Short Notice 11 Emergency 3
4. New Installs – 1
5. System pressure updates – 0
6. After-hours call-outs - 1
7. Fire Hydrants out of service = 3
8. Valves exercised – 2
9. Line Flushing
 - a. 669,600 gal flushed at Big Trees Tank 6 drain.
 - b. Auto Flusher on Indian Rock = 58,500
 - c. Auto Flusher on Hoka = 60,750
 - d. BT 2 Zone = BT 2 Zone = 45,500
 - e. BT 6 Zone = 43,000
 - f. BT 4 Zone = 21,000

More Flushing in Progress

10. Big Trees 6 drain had to be opened for 30 days at 15 gpm to maintain residual.
11. More extensive flushing big trees village.
12. Attended supervisor meeting on (teams).
13. Attended Ebbetts Pass water masterplan monthly zoom meeting.
14. Additional water master plan map work.
15. Attended multiple field meets KW Emerson regarding PG&E work.
16. Attended multiple KW Emerson weekly cons meetings online.
17. Attended multiple field meets with Dars Cox Construction.
18. Attended Dars Cox/PG&E pre con walk thru Meadowmont area.
19. Attended multiple weekly sawmill tank replacement meeting online. field meet with Jason n, to review new hydrant install near the Sawmill Tank and plan for emergency shut down just in case.
20. Attended a County Public Works field meeting regarding paving and riser installs.
21. Attended 2 day ICS. training in San Andreas (Bill, Matt).
22. Attended 1 day ICS training in San Andreas (Nik A).
23. Nik A, continued dirt work at dump pit.
24. PRV 96 inspected.
25. Continued troubleshooting meter & node issues.
26. Multiple meetings with gabe d. regarding seasonal flows and water quality issues.
27. Cleaned up construction material from new fire check building at Big Trees Market.
28. Replaced 4" double check back flow device. (night shut down).
29. Rebuilt/salvaged hydrant surge device. Tested and set.
30. Rebuilt damaged hydrant meters.
31. Coordinated the replacement of a PRV Vault lid damaged by PG&E.
32. Continued marking, flagging and painting district assets for ease of locating and identification.
33. Ongoing documenting and photo logging of PRV stations.
34. Continued logging pressure readings into mms mapping and data collection for masterplan.
35. Daily/ monthly vehicle inspection logs.
36. Completed online D-4 American Water College online training and applied for State exam.
37. Helped Electrical trouble shoot and dig up damaged Timber Trails coms line hit by PG&E. again.....
38. PG&E undergrounding projects continue to consume the distribution crews time and efforts..
39. USAs

*** as always , huge thanks to our other crews for assisting us with repairs when needed.

Jenny Lind Distribution System:

SERVICE LINE WORK

1. 8637 Goggin – Shutdown main and replaced flare
2. 5987 Clements Place
3. 3092 Heinemann
4. 8814 Greer
5. 8882 Redman – Shutdown main and replace flare to curb stops in the meter boxes
6. 5134 Bane – Replaced 30' all the way to new curb stops in the meter boxes
7. 6934 Cane
8. 3985 Bartelink
9. 7615 Sparrowk
10. 7565 Sparrowk
11. 3232 Botfurher – Found a service line and two meter boxes that did not exist in our system maps or in the office accounts
12. 747 Spyglass Ct
13. 4225 Brooks
14. 5888 Garner
15. 6563 McNeil Ct – 2 leaks on the same service line
16. 6302 Baldwin – Full line replacement from the main to the curb stop
17. 7948 Baldwin
18. 4429 Hwy 26
19. 4318 Hagen Ct
20. 8321 Crotty – Intercepted service line in road and rerouted it around poured concrete driveway where the leak was at
21. 8410 Jenny Lind Vista Ct
22. Repaired leak on ARV line at 5825 Rippon
23. 6544 McNeil Ct
24. 11572 Oddfellows
25. 5968 Rippon
26. 3520 Dunn
27. 7073 Mitchell
28. 8269 Hautly
29. 13 Main St
30. 2269 Danaher
31. 6579 Bergsma
32. 149 North Branch Ct
33. 111 Happy Jack Ct
34. 3914 Dunn
35. 8876 Stinson View

MAIN LINE WORK

1. 2" on Baldwin by Usher – Repaired two separate leaks on this line approximately 65 feet apart

ADDITIONAL WORK

1. Vehicle Inspections
2. Weekly tank and pump station checks
3. Line locates
4. Work orders for water quality issues, pressure issues, meter installs, leak checks etc..
5. Month end reads for fire hydrant meters, Lancha Plana, fill stations and raw water
6. GapVax maintenance including greasing and cleaning of suction and water filters
7. Meetings and site visits for A to B project
8. Managed multiple shutdowns and restores for the service line replacements on the A to B project
9. Introduce new PRV's from A to B project into the distribution system and make adjustments – To be continued

10. Replaced broken ARV in pasture next to lower pond that the cows broke off
11. Repaired broken intake line on pump 2 at D tank pressure system
12. Repaired failed cla-val and solenoid switch at D tank pressure system that caused the tanks to overflow
13. Repaired leak on 2 inch galvanized pipe on pump side at D tank pressure system
14. Repaired pilot control on 8" PRV and pilot control on 2" bypass on Usher
15. Assisted Utility Crew on pipeline installation and repairs on multiple days on Baldwin
16. ICS training in San Andreas
17. Supervisors meeting

West Point Distribution System:

SERVICE LINE WORK

1. Acorn Way
2. John Deere Lane

MAIN LINE WORK

1. 6-inch Bald Mountain Road

ADDITIONAL WORK

1. Weekly tank checks.
2. Weekly pump station and lift station checks.
3. USA's line locating
4. Service request
5. Work Orders
6. Flow meter reads.
7. Start and run all equipment, small engines, saws, blowers, Wacker etc. Backhoe, Vac trailer, and air compressor.
8. Sentryx reads.
9. Worked in shop on projects.
10. Walked/Hiked raw waterline from Bummerville Rd. to the Bear Creek Diversion
11. Responded to a Hit Fire Hydrant by PG&E - cleaned up the mess.....on the books for replacement
12. Radio and manual reads
13. Worked with CalFire on clearing the raw waterline easement.
14. Field meet with Habitat for Humanity to discuss locations of water and sewer locations.
15. Located and dug up buried valves on Smitty/John Eph trail X-country line.

Electrical:

1. Added an umbrella to Copper Cove lift station #7 to shade the control panel from the sun to keep the internal temperature down.
2. Troubleshooted the ASCO valve for the ozone generator #1 cooling water at the Jenny Lind WTP, 230 volts going to the coil, ordered replacement.
3. Helped the operator at the West Point WTP with a low influent flow problem, the influent valve was 100 percent open, the problem was hydraulic.
4. Troubleshooted and repaired the filter #2 influent turbidimeter at the West Point WTP, operator cleaned and calibrated it, normal function was then restored.
5. Wired in/tested Saddle Creek pump #2 after the faulty pump cable was replaced.
6. Replaced a failed ASCO valve for the Arnold WWTP sprayfield with a new unit and tested it.
7. Performed electrical system locates at the Arnold WWTP during the construction project.
8. Replaced a failed control fuse in a septic panel on Moaning Cavern Road
9. Helped the collections crew fix a septic system on Bullwhacker Run Road in Arnold, a wire had come loose on a float switch.
10. Troubleshooted and repaired the control system at Copper Cove lift station #41, the PLC was not in run mode, rebooted the unit, normal functionality was then restored.
11. Wired in a new mixer in the sludge lagoon at the La Contenta WWTP and tested.
12. Troubleshooted the bathroom exhaust fan at the Jenny Lind WTP, the switch has failed, ordered a new one.

13. Replaced the ozone generator #1 cooling water ASCO valve coil with a new unit and tested.
14. Worked on the new voice radio repeater firewalls, got the internet tunnelling figured out, IP repeating is now working.
15. Troubleshooted the new 900MHz radio at the Wilseyville lift station, the new C-more HMI at West Point WWTP is causing an erroneous IP conflict in the MicroLogix PLC.
16. Calibrated the Hi Headloss vacuum switch on filter #1 at the Copper Cove WTP after the rehab project.
17. Troubleshooted a heater trip alarm again at Saddle Creek #2 lift station.
18. Replaced the failed 200 amp main breaker for the gear at the Copper Cove WWTP pond 6 with a new unit, had PG&E deenergized the service to facilitate a safe repair, then had them reenergize and test, proper functionality was restored.
19. Performed multiple electrical system locates in the Copper Cove service area.
20. Replaced the failed variable speed switch for the exhaust fan in the restroom at the Jenny Lind WTP with a new unit.
21. Worked on remote access to the new voice radio repeater security PCs.
22. Troubleshooted a total aeration failure at the La Contenta WWTP, replaced a blown fuse in the control transformer, determined the starter for blower 3 was drawing too much amperage, suspect a bad coil, blower #1 and #2 in auto and working, will revisit blower #3.
23. Ran conduit from the new FEMA generator at Copper Cove lift station #19 to the existing Kohler ATS
24. Replaced the gateway and cell modem for the AMI collector at Macatee and Sparrowk in Valley Springs, tested.
25. Troubleshooted pump #1 at the Six-Mile lift station, it was determined the pump has failed, collections crew to order a new one.
26. Replaced failed 0-10psi level transducer at the Conners Main lift station with a new unit and tested
27. Pulled wire and terminated from the new FEMA generator at Copper Cove lift station #19 to the existing ATS
28. Troubleshooted pump #1 failing again at Saddle Creek lift station #2, switched wiring back, switched wiring to test pump #1 and #2 feed breakers, suspect pump #1 feed breaker not passing full voltage through one of the legs
29. Troubleshooted a pump failure at Copper Cove lift station #3,
30. Replaced failed coil in the starter for blower #3 at the La Contenta WWTP, also found bad relay off the auto side of the HOA, replaced the relay as well and tested the control system, proper functionality was restored
31. Troubleshooted a failed HMI screen on the Jenny Lind WTP pretreatment system, half the screen is black, and a reboot wouldn't fix it, ordered a new replacement unit
32. Troubleshooted and repaired the wall unit A/C at Huckleberry lift station, cleaned the filter, it blows cold now, closed the associated work order
33. Performed electrical system locates at the Sawmill tank site during the construction project at the request of the district inspector.
34. Worked with A-TEEM on the new Ignition SCADA application at the Hunters WTP.
35. Installed the grounding system for the new SAF unit at the Copper Cove WWTP.
36. Attended an ICS100 training course.
37. Moved the existing tow behind generator from Copper Cove lift station #19 to the parking lot at the water plant after installation of the new FEMA generator was completed.
38. Troubleshooted a SCADA alarm callout issue at the West Point WTP, the problem was with Volcano telephone service.
39. Attended a 2 day ICS200 training course.
40. Tested a spare phone line at the West Point WTP after Volcano telephone made repairs on their end.
41. Worked with Toshiba technicians on yearly UPS maintenance at the Forest Meadows WWTP UV system and the Copper Cove WTP ozone.
42. Replaced a failed 1500vA UPS battery with a new unit at the Copper Cove WWTP headworks.
43. Cleared a generator running alarm at Copper Cove lift station #18 in the local HMI.
44. Installed conduit for the new FEMA generator at Copper Cove lift station #17

Collections:

1. Continued marking USA's district wide

2. Weekly lift station inspections completed
3. Monthly vehicle inspections completed
4. Monthly dry can inspections completed
5. Online SSO reporting completed
6. Pumped and cleaned LS 7. Quarterly maintenance.
7. Called to 316 Mill Creek Circle. Septic tank basket was plugged and needed cleaning.
8. Called to 4681 Moaning Cave septic tank issue. Breaker to tank was tripped from PGE pole replacement.
9. Checked grease traps in Arnold and La Contenta area.
10. Picked up repaired pump for Saddle Creek LS 2 at Shape and reinstalled it.
11. Pumped and cleaned Millwoods LS. Yearly maintenance.
12. Called to Ace hardware in West Point due backed up toilet. No issues found on CCWD side. Informed customer they needed to contact a plumber.
13. Pumped and cleaned West Point LS. Yearly maintenance.
14. Checked grease traps in West Point.
15. Pumped and cleaned septic tank at 4164 Cedar circle (Six-Mile).
16. Pumped and cleaned LS 3 in Arnold. Bi-annual maintenance.
17. Called to 7047 Ospital septic tank issue. Flex line on effluent line broke and needed to be replaced.
18. Continued TVing and hydroing in Forest Meadows.
19. Called to Connors main LS low level due to transducer failure.
20. Pulled pump one at Saddle Creek 2 and checked rotation.
21. Called out to LS 41 due to a low level alarm.
22. Started TVing areas in La Contenta highlighted in I&I study.
23. Found pump 1 at LS 3 in Copper had gone out during weekly inspections.
24. Called to 6274 Rickey rd. in Connor estates for a sewer clean out leak but it turned out to be a water leak.
25. Helped the Ebbetts Pass Distribution Crew with water leak on Avery sheep Ranch Rd.
26. Called to the Upper Cross-Country LS due to pump 1 failure caused by power outage and repeated overload faults. Once power was fully restored pump checked out normal.
27. ICS courses at office. 7-27 thru 7-29-26
28. Replaced the filter basket at the West Point LS.
29. Pumped the thickener tank at the Jenny Lind WTP.

Construction:

1. Supported all Distribution Crews on leak repair efforts District-wide.
2. Supported the Collections Crew with the completion of work efforts District-wide.
3. Worked with the Copper Cove Operators to clear debris from the Wastewater Ponds.
4. Met with the Jenny Lind Distribution Crew to assess a fire hydrant replacement on Henney.
5. Extensive work associated with installing the SAF unit at the Copper Cove Reclaim Plant.
6. Re-stocked base rock and all the yards.
7. Cleaned and greased equipment.
8. Coordinated Cal Fire work District wide.

Mechanical:

1. On-going work to support all Field Crews, as necessary.
2. District-wide generator checks.
3. Completed ICS Training
4. Troubleshoot and repaired a failure of an air valve actuator at the Copper Cove WTP.

5. Rebuilt the D Tank pressure system Cla-Val in the Jenny Lind Water System service area. Valve failed to close.
6. Night work with the Ebbetts Pass Distribution Crew and the Construction Crew to replace a failed RP Backflow protection device that feeds the Big Trees Market. Successful job.
7. Worked with the La Contenta Golf Course Staff to ensure the effective operation of their pond pumps to ensure the continued discharge of our treated effluent.
8. Rebuilt the check valves on influent pumps 1 and 2 at the Jenny Lind WTP.
9. Completed a 90-day BIT inspection on VEH 745 (2020 Kenworth Dump Truck).
10. Service the generator at the Copper Cove Raw Water Pump Station.
11. Replaced the clutch fan and coolant thermostats on VEH 135 (2013 VacCon) to resolve overheating issues.
12. Received VEH 759 (2023 Dodge 5500 Mech truck) post revbuild.

Utility:

1. Paved 4 crossings and 450 feet of shoulder roadway.
2. Continued to replace services along Baldwin. Completed 19 replacements this month.
3. Continued work related to the installation of 350 feet of two-inch water main.
